Palestinian state to be declared on Nov 15

LONDON, Oct 24. (Reuter): The Palestine National Council (PNC) will declare an independent Palestinian state on Nov 15, a senior Palestine Liberation Organisation (PLO) official said

in a newspaper interview today.

Bassam Abu Sharif told the
London-based Mideast Mirror that Saturday's summit in Aqaba Jordan between King Hussein, PLO chairman Yasser Arafat and Egyptian President Hosni Mubarak would not deter the PNC from making the statehood declaration.

"All those in Israel or the United States who think that the tripartite summit has reduced the chances of announcing an independent Palestinian state are deluding themselves, because we will definitely declare our independent state," he said.

The PNC, the Palestinians' parliament-in-exile, will meet on November 12 to consider the PLO's political options for the future of the Israeli-occupied

territories. "We're going ahead with our decisions and on the 15th of November we will declare the creation of the independent state," Abu Sharif, a top Arafat aide, said in the interview from Baghdad.

He said he expected a PNC political communique on November 15 would "talk about a two-state solution in Palestine," a reference to a Palestinian homeland existing side-by-side with Israel.

But Abu Sharif stopped short of saying whether acceptance of a two-state policy would be tan-tamount to explicit PLO recognition of Israel's right to exist.

He told the newspaper the PNC also will discuss a paper presented by the Palestinian leadership about the formation of a provisional government, but did not elaborate.

Kuwait-Tehran relations have taken a positive turn

Iran will respond to Saudi overtures

NICOSIA, Oct 24, (Reuter): Iran will reciprocate any positive step by Saudi Arabia to improve relations, Foreign Minister Ali Akbar Velayati was quoted yesterday as say-

"We will respond positively to any real positive step by (Saudi) Arabia towards ending the problems between the two countries," he said in an interview in the daily newspaper Resalat.

Problems

"Of course there have been difficulties which have led to a break in relations and their removal would better the existing climate," Velayati added in the interview, carried by the Iranian news agency IRNA.

Sick Benazir delays

start of campaign

King Fahd, who broke ties with Tehran in April, ordered the Saudi media on Wednesday to stop attacking Iran, saying problems with it were limited and could not be continued. Velayati said Iran should wait and see whether the attacks ended.

The English-language Tehran Times welcomed the Saudi move and said the two countries should move towards better relations.

"in the past ... Iran-Saudi Arabia relations witnessed bitter periods. These now need to be put on a better footing through positive and joint political moves," it said in an editorial. But the editorial, quoted by

IRNA yesterday, also said Iran should wait for further peace moves by Riyadh. In particular, it said, Saudi Arabia should pressure its ally lraq to reach a set-

a British government minister said today in Abu Dhabi.

Speaking at a press conference after talks with United Arab Emirates leaders, William Waldegrave, British Minister of State for Foreign and Commonwealth Affairs, also predicted better relations between Britain and Iran would help in the release of foreign hostages in Lebanon.

Contacts

Waldegrave arrived yesterday in Abu Dhabi, the third leg of a tour that has already taken him to Saudi Arabia and Oatar.

He said the leaders of the three Gulf Arab states believe that Iran is "going in the direction of moderation and of seeking openness to the outside world again.
"I think everywhere, leaders

Velayati have told me that Iran has lear-

ned by experience that it cannot do without friends and trading partners," Waldegrave said.

He said he hoped current contacts between Tehran and London would succeed in re-establishing full diplomatic relations between the two countries.

Asked if the resumption of relations would facilitate the release of Western hostages, including British church envoy Terry Waite, Waldegrave said there was "no direct linkage between the issue of the hostages and the opening of diplomatic relations.'

However, he added, the "warmth" of ties would "obviously depend on all the help they (Iranians) can give ... with people they may have influence on in Lebanon."

Colombo under curfew as bombs kill four

COLOMBO, Oct 24, (Reuter): Bombs killed four people and wounded about 50 during a meeting of Sri Lanka's ruling United National Party in Colombo today, police and witnesses said.

The attack came as the government imposed a curfew in the capital and Sri Lanka's southern province from midnight today, citing reports that Marxist rebels were planning violent demon-

The government ordered security forces to shoot curfew violators on sight.

Police said three bombs were thrown at a meeting of local UNP officials in Colombo's Kotahena district. They said they did not know who was responsible for the attack.

Witnesses said the meeting had been called to plan for the Dec 19 presidential election.

In a statement announcing the curfew, the government said "subversive elements" were planning widespread attacks in the next 24 hours.

"Their plan appears to be to kill individuals, destroy public property and attack security forces' establishments under the

guise of protest," it said. The statement did not identify the plotters, but officials said the Marxist People's Liberation

Front was reported to be organising strikes and demonstrations.

Officials have accused the front of nearly 500 killings in its campaign against last year's India-Sri Lanka peace pact aimed at ending a Tamil separatist rebellion in northern and eastern Sri Lanka.

The front, most of whose members are from Srl Lanka's Sinhalese majority, sees the pact as a sell-out to the Tamil min-

Many Sinhalese are also opposed to the presence of 50,000 Indian troops sent to Sri in July last year by President Junius Jayewardene and Indian Prime Minister Rajiv Gandhi.

Attempted

The government statement said: "They (subversives) have visited homes and attempted to recruit forcibly unwilling individuals to participate in their

subversive activities."

The curfew in Colombo and its suburbs will be in force for 18 hours from midnight today. The curfew in southern province, a front stronghold, will last for 28

"The security forces have been given strict orders to enforce the law. Curfew violators in particular are warned that they are liable to be shot at sight," it said.

Israelis free 54 Palestinians

JERUSALEM, Oct 24, (UPI): Israel released 54 of an estimated 2,500 Palestinian prisoners at the Ketziot detention centre in a goodwill gesture for the birthday of the Prophet Muhammad (PBUH).

The freed prisoners were taken to civil administration headquarters in Gazz city yesterday where a high-ranking officer told them he hoped "they would use this gesture positively, returning to their everyday life of work and studying," an Army spokesman said.

The military opened the sprawling detention centre in the Negev desert in March to hold Palestinians arrested during the Palestinian uprising.

An estimated 2,500 Palestinians are imprisoned in Ketziot under emergency security regulations governing the Israeli-occupied West Bank and Gaza Strip. The regulations allow the military to imprison someone for up to six months without charge or trial.

of the 54 arrested had nearly completed their six months of administrative detention when they were freed. Several hundred imprisoned Palestinians of the thousands detained have been released in similar gestures this

Palestinian sources said many

Top Hezbollah men in Tehran for talks on hostages

BEIRUT, Oct 24, (Reuter): Top officials from the pro-Iranian Hezbollah group are in Tehran for talks on securing the release of some US hostages in Lebanon. senior Muslim security sources said today.

One source said at least four officials had been in the Iranian capital since last week discussing ways to end the hostage issue.

Another source said Iran asked the officials to visit Tehran to "inform them of a deal it is working out with the Americans to release the hostages." The source quoted what he called pro-Iranian quarters in Lebanon as saying the deal involved an

Exchange

The United States said last week it flatly rejected a proposal by international arms brokers that American-made F-5 warplanes be sold to Iran in exchange for the US captives.

The pro-Iranian Islamic Jihad group holding two American hostages said yesterday they would come to harm unless the United States ended support for what it called Israeli aggression. It was the group's second such threat in three days.

Hezbollah is believed to be behind the kidnapping of some of the 17 Westerners held in Lebanon, including nine Americans. It has repeatedly

denied links to hostage-takers.

Four British Members of Parliament, two from the ruling Conservatives and two from the opposition Labour Party, met

Muslim Lebanese officials Hussein Husseini and Selim Al Hoss in West Beirut 10day.

Husseini is speaker of the country's paralysed parliament and Hoss heads one of two rival governments which have vied for power since Amin Gemayel ended his term as President a month ago without a successor having been chosen.

The British parliamentarians arrived from Damascus after five days of talks with Syrian officials on ties between the two coun-

Britons

Church envoy Terry Waite and two other Britons are held hostage in Lebanon but the MPs said they did not discuss their fate with Husseini and Hoss.

"We are here only to learn about the current politics of the country," said delegation member Andrew Faulds.

Lebanon's political impasse has sparked fears of renewed civil war and the permanent partition of the country into Christian and

Muslim fiefdoms.
Islamic Jihad, which has held journalist Terry Anderson and university dean Thomas Sutherland for more than three years, said in a statement on Friday that the captives might be harmed in retaliation for Israeli air raids on southern Lebanon.

Islamic Jihad has issued several threats against the lives of its hostages in the past without carrying them out. It says it will only free the hostages when Israel releases all Palestinian and Lebanese prisoners.

By police count, 89 people

Israeli jets raid Lebanon for second time in 4 days

TYRE, Lebanon, Oct 24, (AP): Two Israeli warplanes blasted a military base of a Syrian-backed Lebanon with four rockets today, setting it afire and wound-

ing one commando, police said. They said ambulances and fire engines were dispatched to the target of Israel's 17th air raid in Lebanon this year. The base is located in the Bekaa valley village of Beit Lehia and was struck at 1:30 pm (1130 GMT). Police said the wounded

militiaman and the demolished one-storey base belonged to the Syrian Social Nationalist Party.

They said the attack also damaged four houses near the base, some nine miles (15 kilometres) north of Israel's selfdesignated security zone in South Lebanon.

Avenge

It was Israel's second air attack on Lebanon in four days. Both apparently were designed to avenge the killing of eight Israeli soldiers in a suicide car bombing in the security zone last Wednesday.

The Israeli command said its warplanes destroyed a commando base in Beit Lehia near the town of Mashgara in the foothills of Mount Hermon and

returned safely to base.
The SSNP is a pro-Syrian leftist party which maintains bases in Syrian-controlled areas in Lebanon and has claimed responsibility for several attacks into the security zone in the past three vears.

It is a member of the National Resistance, a loose coalition of leftist factions fighting for withdrawal of Israeli troops in South

Britain supports **Mideast** conference

ABU DHABI, Oct 24, (Agencies): Britain strongly supports an international Middle East peace conference and believes Israel's policies are misguided, visiting British Minister of State for Foreign Affairs, William Waldegrave said today. He told reporters in Abu Dhabi, a conference must be the first objec-

israel's efforts to contain a Palestinian uprising through force had gone too far, he said.

"Their policy leads nowhere. I think Britain's role, as often, is that while we are a member of the European Economic Community, we also have very close relations with the United States and we could bring them to see that Israel must respond." he said.

Powerful The United States, which has a powerful Jewish lobby, and the Soviet Union have also backed a conference but do not agree on its

Waldegrave said Britain's relations with the region, especially the United Arab Emirtes of which Abu Dhabi is part,

remained very good.

Meanwhile, a London daily reported that the US has dropped its long-standing opposition to Soviet involvement in Middle East peace talks.

The independent newspaper quoted the Soviet Deputy Foreign Minister, Vladimír Petrovsky, as saying that an "international consensus" was developing on a multilateral approach to the Arab-Israeli conflict.

In an interview with the London-based daily Petrovsky said the world "map of crisis situations (was) being filled with solu-

He added: "the Middle East is the only exception, and ... it is also pressing for resolution."

Refused Petrovsky refused to comment on details of talks last month between the foreign ministers of the five permanent UN Security Council members, but "hinted that Washington is preparing to renounce its go-it-alone policy towards the (Arab-Israeli) conflict," said the Independent.

Joan leaves 300,000 homeless

111 killed in six-day rampage of hurricane

the east coast Nicaraguan city of Bluefields with 125-mph (200

MANAGUA, Nicaragua, Oct 24, (AP): Hurricane Joan killed at least 50 people and left 300,000 homeless in its rampage across Nicaragua, officials said yesterday. Rain drenched the country while the government tried to organise rescue efforts and restore communications.

The storm left another 21 people dead in Costa Rica and four dead in Panama, bringing the death toll for its six-day rampage across the Caribbean to at least 111. Twenty-five people died in Colombia and 11 were killed in Venezuela.

Joan slowly weakened into a tropical storm over Nicaragua but strengthened again when it

reached the Pacific Ocean. Because it was no longer an Atlantic hurricane, it was given a new name in the sequence of this year's Pacific storms: Tropical storm Miriam.

Sustained AT 0000 GMT today, Miriam was about 50 miles (80 kilometres) south-southeast of San Salvador, El Salvador, with maximum sustained winds of about 55 miles (88 kilometres) per hour, according to the US national hurricane centre in Florida. The hurricane centre said the storm was moving in a westerly-northwest direction at 10 miles (16 kilometres) per hour.

Bush and Dukakis open final flurry of campaign

WASHINGTON. Oct 24. (Reuter): With just 16 days to go to the election, the presidential candidates today opened a final flurry of campaigning with George Bush opting for pressthe-flesh personal appearances and Michael Dukakis hitting the nation's television screens.

Before Bush left on a foray into new England, home territory of Dukakis, Governor of Massachusetts, his aides rejected charges of distortion and racism from supporters of the Democratic candidate.

Comfortable

Bush, the Republican candidate, maintains a comfortable lead in opinion polls and took yesterday off to refresh himself before beginning non-stop campaigning until the Nov 8 poll.

Dukakis campaigned in California, vital because it has the country's largest number of electoral votes, which actually determine the winner of a presidential election.

Dukakis backers planned a major television push to counter what they considered a negative campaign by Bush.

They promised lengthy television interviews as well as a flurry of hard-hitting short commercials to lift Dukakis in the polls in which he has been stuck with about a 10-point deficit for

Suggestions

On Sunday, Dukakis, disturbed by a survey that showed him with significantly less support among blacks than 1984 Democratic loser Walter Mondale, met in Boston with black leaders, including the Reverend

Dukakis said only that the meeting was candid and the black leaders "made good suggestions about the closing couple

But Jackson charged the Bush campaign included "a number of rather blantly race-conscious

signals that had the impact of instilling underground fear in whites and alienation in blacks." Bush has appeared to win support with an ad criticising a Massachusetts programme that allowed a weekend leave from prison to a black convicted murderer, Willie Horton, who then

raped a woman and assaulted her Strong

The focus has been on these kinds of strong and rather sinister attacks by this administration," Jackson said, adding his personal resentment that during the primary campaign Bush had called him a "three-headed monster" and a "Chicago hustler." Bush campaign spokesman

Mark Goodin denied the charge of racism. "It strikes me that Reverend Jackson must be hallucinating or something." He said the issue "has never

been Willie Horton. It has always been how he got out of prison." However, other Dukakis

backers joined in claiming racial overtones in the Bush campaign including Senator Lloyd Bentsen, Dukakis's choice as vice "When you add it up, I think?

there is (racism in the campaign)," he said in a television interview. "And that's unfortunate. I just don't want to see this election won on that kind of packaging, on that kind of dis-

Drive against Sikh separatists

CHANDIGARH, India, Oct 24, (Reuter): Indian security forces have launched a fresh drive in the northern state of Punjab against Sikh separatists they accuse of resorting to extortion to keep their cause alive, police said today.

They said sweeps through districts around the Sikh holy city of Amritsar over the past five days had netted 60 militants or people accused of hiding separatists, who have regrouped after serious losses and resumed killing people in large numbers.

Ardeast 44 people were killed over the weekend, many of them

in the area around Amritsar. The deaths took the 1988 toll in the separatist campaign for an independent Sikh state the militants call Khalistan past 2.100.

The death toll in the whole of 1987 was 1,230. Police alleged that many of the

weekend victims were people who had refused to pay off separatists police say are losing popular support.

In an effort to recover support in Punjab, India's only Sikhinajority state, the militants have assassinated people they said were criminals.

Hurricane Joan blasted into adjoining rain-swollen rivers and 2 killed, 40 injured in S. African blast

JOHANNESBURG, Oct 24, (Reuter): A car bomb devastated a shopping centre today, killing two people and injuring at least 40, two days before South Africa

holds segregated local elections. The blast rocked the OK Shopping Centre in the mining town of Witbank, 145 km (90 miles) east of Johannesburg, dur-

ing the morning rush hour. It mowed down scores of pedestrians, lifted roofs off buildings and left streets littered with rubble for several blocks, eyewit-

Disrupting The attack was the deadliest since African National Congress (ANC) guerrillas launched a bombing blitz aimed at disrupting the nation-wide municipal

"I thought the building was going to take off," shopowner Eric Viana said. "Our doors were blown from the hinges."

Police said the dead were a black man and a black woman who were in the car park of the OK Shopping Centre where the bomb exploded.

Witbank hospital said most of the injured had cuts and shrapnel wounds. One black woman lost her left foot and two pregnant whites were among those hurt, a spokesman reported.

Witbank is in the rightwing heartland of Transvaal province which is expected to swing to the pro-apartheid, white supremacist Conservative party in Wednesday's polls.

The elections are the first in which South Africans of all races will vote on the same day. The government hopes the polls will promote dialogue with blacks and has spent millions of dollars in advertising to encourage a big turnout.

Many South African blacks. including Anglican archbishop

Desmond Tutu, have dismissed the elections as an exercise in apartheid as each race will vote for separate municipal councils. It was the 19th bomb attack this month and followed an apparent attempt yesterday to assassinate Law and Order Mini-

ster Adriaan Vlok. A suspected guerrilla was arrested with a limpet mine about 150 metres (yards) from

where Vlok was opening a police station near Cape Town. The ANC, the main black nationalist group fighting white minority rule, has vowed to disrupt the elections and branded black candidates as collaborators with racists.

Although the ANC has said its campaign is aimed at security targets, car bombs and limpet mines have exploded around bus terminals, rugby stadiums and other civilian areas such as shopping centres in white suburbs.

Gorbachev, Kohl seek to improve ties

MOSCOW, Oct 24, (AP): West German Chancellor Helmut Kohl, seeking improvement in relations with the Soviets, met today in the Kremlin with Mikhail Gorbachev for their first formal talks since Gorbachev

became Soviet leader. Kohl, who arrived earlier on a four-day official visit, was greeted at Vnukovo airport on Moscow's southwest by Soviet Premier Nikolai Ryzhkov,

Foreign Minister Eduard Shevardnadze, Defence Minister Dmitri Yazov, and other top officials. Tass said.

The West German leader and his wife Hannelore were whisked into central Moscow by motorcade, and received by Gorba-chev, the Soviet President, and his wife Raisa in St. George's Hall of the Kremlin, the official Soviet news agency Tass said. The two leaders then began talks in another part of the Kremlin, St. Catherine's Hall, where the throne of the Russian czars once was located, Tass said. Details on the content of the discussions were not immediately available.

Kohl last met with Gorbachev in Moscow in March 1985 when he attended the funeral of Konstantin Chernenko, the man Gorbachev succeeded as Communist Party General Secretary.

Guerrillas spurn Najibullah's Makkah talks offer

(Reuter): Anti-communist guerrillas today rejected Afghan President Najibullah's offer for peace talks in the Saudi Arabian

holy city of Makkah.
"Najib should know well that mujahedeen (guerrillas) are not ready to talk to him anywhere and under any conditions," Burhamuddin Rabbani, leader of the Pakistan-based guerrilla alliance, said in a statement.

Najibullah's offer, reported by official Kabul Radio, came in a speech on Saturday to an international conference on Islam in the Afghan capital.

The conference attracted representatives from 25 countries, including the United States and Soviet Union.

The Western-backed rebels have rejected previous offers for talks by Najibullah's Sovietbacked government since it launched a "national reconciliation" policy at the beginning of 1987.

They have vowed to fight on until the Kabul government is replaced by their own Islamic government.

Najibullah said in his speech on Saturday that Kabul was ready to discuss peace with the rebels anywhere they chose, the official Bakhtar news agency

Saudi Arabia agree (to act) as a host country, we are ready to hold talks with the opposition in holy Makkah" he said according to a text of the speech issued by

Bakhtar today. Saudi Arabia is a major financial backer of the Afghan rebels. Rabbani said Najibullah should himself go to Makkah "to repent disbelief and atheism and to return to the fold of Islam."

He added: "Going to Makkah and repenting his wrong beliefs and numerous crimes will hopefully open the door of God's mercy to him."
Najibullah told the con-

ference: "Afghanistan has always been an Islamic country and will remain a true stronghold of Islam."

He also said Kabul wanted its membership of the 46-nation Organisation of Islamic Conference (OIC) reinstated. The OIC suspended Afghanistan's membership after the December 1979 Soviet military interven-

Seven Palestinian guerrillas captured

RASHAYA, Lebanon, Oct 24. (Reuter): Israeli troops and militia today captured seven Palestinian guerrillas including a woman as they tried to enter Israel, a radio station said.

The Voice of the South Radio run by Israel's South Lebanon Army (SLA) militia allies said the seven were caught at dawn in Kfarkila village in Israel's selfdeclared security zone.

Clash

It said the guerrillas stormed a house in the village last night and asked the owner to hide them until dawn "as they planned to infiltrate into Israel for an attack

ted the seven," the radio said. It added that the seven were Palestinians who had entered the zone from the southern Lebanese port of Sidon, a main bastion for Palestinian guerrilla groups.

The SLA, backed by Israeli helicopters, killed six guerrillas of the radical Popular Front for the Liberation of Palestine (PFLP) in a clash inside the zone

yesterday. SLA militiamen clashed three times over the weekend with guerrillas in the security zone, set up by Israel in 1985 to protect its northern settlements from guerrilla attacks.

of residents in connection with a suicide car bomb attack last Wednesday that killed eight

Contacts with communist nations stepped up

Iran looks to East for friends

(Agencies): In a push to end its isolation. Iran has stepped up diplomatic and commercial contacts with communist nations such as the Soviet Union and China, while relations with the United States remain frozen, US officials say.

Since the war between Iran and Iraq ended two months ago, the government of the Ayatollah Khomeini has expanded links with more than 20 countries on six continents in a campaign to attract foreign investments, State Department officials and Iranian specialists said last week.

Behind State Department officials estimate that Iran will need an infusion of at least \$100 billion to rebuild its war-torn economy, care for war victims and their families and revive its depleted

armed forces. Some Iranian experts believe a flawed Reagan administration policy is keeping the United States from the fruits of an improved relationship with the strategically important Gulf gest oil exporter in the 1970s.

"We are not getting near the starting gate," said James Bill, a professor at the College of William and Mary and author of a book on US-Iranian relations. "Iran is reaching out, but I see very little sign on our part of an exploration of new avenues and

new approaches." Help

Pro-Iranian kidnappers released an Indian citizen with American resident status earlier this month after holding him hostage in Lebanon for 20 months.

Secretary of State George Shultz said US-Iran relations will not improve unless Tehran stops supporting terrorism and takes steps to secure the release of all nine American hostages being

held in Lebanon. Shultz has invited Iran to join in a direct dialogue but said he has received no response.

"If Iran wants a direct dialogue, fine," a department official knowledgeable about make unilateral gestures in the hope they will consent to talk to

Iran has expanded ties with communist governments in Hungary, the Soviet Union, China and North Korea in the past month, according to state-run media in all five countries.

The Soviet Union is helping to rebuild an Iranian steel mill and thermal power plants and has been discussing with Tehran expansion of oil and gas cooperation, Radio Moscow has reported.

North Korea and Iran signed mining, trade and fisheries agreements earlier this month, according to the state-run Iranian news agency IRNA. In addi-tion, Hungarian Premier Karoly Grosz is due to visit Iran from Oct 25 to 27.

Criticism

Meanwhile, an Iranian cleric said yesterday, Iranian leaders should learn to listen to criticism

and act on it if necessary.
"We ask government leaders and officials in charge of the

future leadership. Meshkini, in a message to medical students meeting in Qom, said no one group should consider its way of thinking as

heaven" and seek to impose its

FBI examines Zia's plane crash report

WASHINGTON, Oct 24, (AP): The FBI is examining a report by Pakistan on the plane crash on Aug 17 that killed Pakistani President Mohammad Zia-ul-Haq to determine whether to pursue an independent investigation, officials said yesterday.
"We've been forwarded the

report by the Justice and State Departments and we're analyzing it now," FBI spokesman Demery Bishop said of the Pakistani investigation into the crash that also killed the US ambassador to the country and 28 others aboard.

"It's more of an inquiry now." Bishop said. "Whether we will go forward with it or the next step is uncertain at this point."

The Pakistani investigation, which was assisted by a team of US technical experts, concluded that sabotage was the most likely cause of the crash, according to parts of the report made public last week.

Briefed

Members of Congress were briefed on the report by Pen-tagon and State Department officials in closed-door meetings last week. Reportedly, they were told the Pakistani investigation was unable to pin down the exact cause of the crash

Among those killed were US Ambassador Arnold Raphel and Brig. Gen. Herbert Wassom, the senior American defence official stationed in Pakistan.

The crash and the investigation into it has been a sensitive issue for US officials because of Zia's role, with encouragement from the United States, in helping supply rebel guerrillas in their fight against Soviet troops in neighbouring Afghanistan.

No winner in **Shamir-Peres** TV debate

OCCUPIED JERUSALEM, Oct 24. (Reuter): Israeli political analysts say there was no clear winner in a debate between Prime Minister Yitzhak Shamir and Foreign Minister Shimon Peres which was unlikely to sway voters nine days before elections.

"There is no doubt it (the debate) will have no dramatic effect on the electorate," said Menachem Shalev, diplomatic correspondent for the Jerusalem

Post.
"There was no knockout and I think each side can claim its own leader won points," he said after the 30-minute debate was broadcast on Israel Television yester-

day. Neither Shamir, leader of the right-wing Likud Bloc, nor Peres, head of the centre-left Labour Party, surprised the Israeli public with any new Middle East peace proposals.

"Neither side said anything new. They said it all during the campaign, so I don't think it will have a great impact on the voters," said Aviezer Golan, an editorial writer for Yedioth Ahronoth, Israel's biggest-sell-

ing newspaper. Most opinion polls show Likud and Labour neck and neck ahead of the Nov 1 election. The two parties agreed to form a national unity coalition in 1984. after neither side won enough votes to form a government on its

Peres said he would establish another government with Likud if it would promote peace, but Shamir called on voters to give his party enough support to establish a broad government whose participants will be loyal and will jointly co-operate for the good of the people.

Respiratory diseases common among children in Kuwait, doctor says

By Y. John

DR D.C. SHARDA, the consultant paediatrician and unit head of the Farwaniya Hospital, has said bronchial asthma in children is quite common in Kuwait.

He said he has seen and treated a number of rare diseases among children in Kuwait during the last nine years. But, Dr Sharda said: "The most common diseases we see here are respiratory diseases mostly due to viral infection. Bronchial asthma is the maximum affected disease in Kuwait compared to other places such as the UK, USA,

India and Iran. He began specialising in child diseases some 25 years ago and has worked in hospitals in the UK, USA, India and Iran before

being appointed here. He has discovered respiratory diseases among children as well as diarrhoea, rheumatic fever,

Congenital

kidney and heart problems.

"Diarrhoea is more common during the summer season and affects mostly people who travel abroad and come back," Dr Sharda said. He added that living in overcrowded areas can also lead to rheumatic fever and nephritis, an inflammation of the

He has written many research papers on children's diseases in world medical journals. He recently completed a paper on

Teenagers injured in sea front fights

FOR the first time, the sea front has been the scene of fights involving teenagers and necessitating intervention by

securitymen.

A local newspaper reported that some casualties were rushed to the Amiri Hospital. Clashes also spread to the Al Shaab Park and brought traffic to a standstill, the paper added.

Policemen said they believe the fights began when groups of teenagers started harassing families and attacked those who tried to stop the youths.

Some youths have been referred to juvenile authorities and investigations are continu-ing, the daily added.

Dr D.C. Sharda

kidney diseases among children. These diseases are not quite common in hot climates, and it is surprising they are seen in Kuwait," he said.

He said this could be because of duststorms, climatic condi-tions, air-conditioning and

pollution from vehicles. People who live in heavily populated areas with poor living conditions, especially those who belong to lower socio-economic groups, are prone to these diseases, he said.

"Farwaniya Hospital's paediatric department is one of the busiest departments in Kuwait, with about 6,000 admissions a year and about 60,000 children attending the paediatric casualty clinic which is 24-hour service,

Dr Sharda said congenital heart disease is common among children here.

He has conducted resear in on lung cancer in children and his findings earned him valued recognition later. He was recently elected a Fellow of the Royal College of Physicians of Edinburgh.

Dr Sharda said intermarriages can be the cause of some mental disorders passed in the family. Similarly, there are certain types of blood diseases which cause anaemia and are quite common here.

Rickets

"Another common disease we see among children is rickets, (which causes bones to become soft). This is due to a lack of vitamin D and lack of exposure to sunlight. In spite of plenty of sunshine, there is very little exposure to sunlight and most children lead an indoor life," he added.

Dr Sharda told the Arab Times he has also found brucellosis to be quite common in Kuwait. This is caused by drinking raw goat's milk. Symptoms include fever and severe body pains, he said.

"Unless it is suspected it can be missed or wrongly diagnosed. If it is not diagnosed in time it can be a crippling, disease," Dr Sharda said. He has written a research paper on the subject and wrote about it in a leading Western medical journal recently.

He also advised parents to boil any milk which is not pasteurized

before drinking.
"We have an excellent healthcare system. When the child gets sick the parents can take the child to nearest clinic and if the nature of disease requires a specialist, the case can be referred to hospital," he said.

Two sentenced for car theft

KUWAIT'S Criminal Court sentenced two persons to three and two years rigorous imprisonment respectively on charges of stealing a car belonging to an Iranian national.

The court was told that CID men arrested the owner of the car for illegally entering Kuwait after

being deported.

The accused went to the Jabriya Traffic Department to renew his car book, but was arrested by CID personnel. His car remained parked in front of the Jabriya Traffic Department.

The first defendant was visiting his friends, the second defendant, who was working in the department at the time of the arrest of the Iranian.

They both decided to steal the car. The first defendant brought an electrician claiming that he had lost the key to the car and wanted to change the ignition.
The second defendant was

accused of breaking the window of the car to open the door.

The first defendant used the car for about one month before being arrested.

Minister of Defence Shelkh Nawaf Al Ahmed (centre) is shown visiting the Ahmed Al Jaber Air Base yesterday. He was accompanied by Army Chief of Staff Maj. Gen. Mazyed Al Sani (second from right) and high-ranking military officers.

Amir will honour outstanding students proposed

KUWAIT, Oct 24, (KUNA): Education Minister Anwar Abdullah Al Nouri said Satur-day that HH the Amir has decided to reward outstanding students at the final secondary school examination this

Al Nouri told KUNA that the top 12 students in the science section, the first eight in the arts section, the first 10 in the course system, six from science and maths sections and four from other sections, in addition to the first three in the religious institute, will be honoured.

Four non-Kuwaitis will receive awards. The top two students from the science and the arts sections will be honoured, he

The minister said those top students will meet the Amir after the declaration of final exam results. He will present them with gold medals on which their names, section and the year of graduation will be printed.

The Kuwait students will be accepted at Kuwait University according to their wishes. Non-Kuwaitis, if not accepted in Kuwait University, will be sent by the Amir to study abroad on his own expense, the minister said.

He asserted that his ministry will continue to honour outstanding students. The Amir's initiative emanates from his constant encouragement to outstan-

New routes planned by transport company

By Jamal Amin

KUWAIT'S Public Transport Company provides transporta-tion for 30,000 passengers from 4.00 am until 10.00 pm daily.

Abdul Wahab Al Haroun, the company's board chairman, said the company continuously studies overpopulated areas to determine transportation requirements of residents. Areas such as Hassawi, and Juleeb Al Shiyookh are given priority as they are heavily populated with laborners.

Areas such as Kheitan are provided with more buses during peak hours. Kheitan now has 118 buses and more will be added, he

Al Haroun said that studies are under way to determine transportation needs at remote areas and especially in Qurain and Sabah Al Salem. New routes will be added in the future, he added. The new route will link Salmiya and Hawalli with Kheitan and Juleeb Al Shiyookh. It will

start from the Ras Al Ardh bus station in Salmiya and end at the bus centre in Juleeb Al Shikyookh. Discussing the company's new bus cards, Al Haroun said that

they are not expensive and will save passengers money.
Seventy per cent of the subscribers use the buses more man four times daily 25 per cent use them three times daily and 5 per cent travel once a day, he said

The company operates 57 different routes and serves all areas of Kuwait. It owns 700 buses regular maintenance and the rest

for passenger transport. A decision has been issued to ban smoking inside buses, the official said.

6 pedestrian overpasses

THE Municipal Affairs Committee has reviewed recommendations from the Technical Committee on the construction of six pedestrian overpasses along the Arabian Gulf Road.

Meeting under the chairmanship of Minister of State for Municipal Affairs Mohammed Al Rifai, the committee endorsed forming a subcommittee to investigate sanitary drainage problems caused by direct linkage of sanitary networks along the southern coastline to the sea.

The committee also discussed a decision by the Higher Com-mittee for Physical Planning and Major Construction Projects to relocate the Ministry of Interior outside the city. It also decided to allocate the former site of Salahdeen School and its related computer centre to the Ministry.

Meanwhile, an official source at the Ministry of Public Works said that work was progressing to upgrade Ghazali Road to meet international highway standards.

The work included the construction of a 1,850-metre bridge with four ramps linking it to the underlying road which will start from the Ghazali Jamal Abdul Naser southern interchange up to the Ghazali 4th Ring Road intersection.

Maid fined

KUWAIT'S Court of Misdemeninour sentenced a maid to one month in jail, but the court is allowing herato pay &D100 to suspend the statence and where:

The court was told that the defendant was reported to the police by her employer for itentionally adding detergent to the food of her employer's baby.

The maid acted so because she was angry after her employer had prohibited her from dining with the rest of the housemaids.

EAFRAIN DIGEST

Indian expatriates registered

INDIAN expatriates in Bahrain now number roughly 80,000, according to the Indian Embassy here.

The figure is based on the number of Indian nationals who have so far registered at the embassy. Early this year, the embassy launched a compaign to register the Indians on the island to provide better and more efficient consular services to them and to look after their wetfare while in Bahrain.

A. Karuppaiyah, first secretary of the embassy, said: "80,000 is just a rough estimate. It is not possible to keep track of the exact number of Indians, as on any particular day 100 people may leave and 150 may arrive in Bahrian. We are happy, though, that most of

the Indians here have registered with us." The embassy has been expanded to provide better services and eliminate the long queues and overcrowding of the past.

Steel company to expand

BRC Weldmesh (Gulf), a Bahraint steel company which supplies the construction industry is launching a BD 150,000 expansion programme over the next two years.

The company, which has recently undergone a BD500,000 expansion, celebrates its 15th anniversary this week.

The firm belongs to the BRC (British Reinforced Concrete) group of companies in Britain. It is equipped with the latest machinery in steel and construction technology.

According to Emad Almoayed, managing director, the company will undergo a further BD 1 50,000 expansion to maintain the high

quality of its products. "We have to achieve 90 per cent Bahrainisation within three years with the co-operation of various vocational training ins-

fitutes," said Almoaved. The company's main product is steel reinforcement for the

construction industry. Almoayed said that with the introduction of new machinery, the company's products had proved increasingly popular with engin-

eers as well as local and foreign consultants. "As part of its diversification plan, the company also produces cut-and-bend steel bars, which save a considerable amount of time of contractors and are ideal for Bahrain where construction

site space is restricted," he said. "Other products include weldmesh used in non-concrete work high-security tencing and also for agricultural and industrial applications."

He said that another new area recently explored by the company is the production of shop fittings and shelving units. He said that 20 per cent of the company's products are exported.

The firm started in October 1973 with six employees. Today it has 52 employees, half of whom are Bahrainis.

On the occasion of the 15th anniversary of the company, a reception will be held on Wednesday night at the Diplomat Hotel.

Lebanese newspaper praises Kuwait

BEIRUT, Oct 24, (KUNA): The Lebanese daily Al Bairaq today commended Kuwait in the highest terms for its vital role in regional and international

affairs. In a front-page editorial, Al Bairaq: said today: Kuwait deserves appreciation and congratulations for the achievements it has realised through hard work and persistence.

The paper described Kuwait as a tiny state which, by the will and wisdom of its leaders, knew how to lay down the foundation of a modern, sovereign, strong

and independent state. It added that the Kuwait leaders have ruled their country in the best way and established a strong and stable system of

It said no one can deny the effective role Kuwait plays in set-tling Arab differences. The daily said that this role was obvious in the efforts Kuwait exerted

Gulf war. "Kuwait has proved that it masters the international game," the newspaper said.

toward bringing an end to the

Kuwaiti Interior Minister "For all those reasons and achievements, Kuwait has

proved that it is a state that deserves to live," the paper con-Meanwhile, Kuwait's interest

in diversifying its sources of weapons was published in a front page report of the same daily.

to Kuwait Waldheim coming and continuous political, economic and cultural ties between

VIENNA, Oct 24, (KUNA): Kuwaiti Ambassador to Austria Abdel Hamid Al Awadi has said that Austrian President Kurt Waldheim will arrive in Kuwait on Monday as an old friend of HH the Amir and the Kuwaiti

people.
In an interview with KUNA, the Chief of the Arab Diplomatic Corps here expressed hope that the Austrian government will open embassies in all Gulf Co-operation Council countries, instead of just in Saudi Arabia and Kuwait as in the case now.

Awadi added that all GCC

states except Bahrain have embassies in Vienna. Austrian Foreign Minister Alois Mock said his country will

open an embassy in Bahrain and Oman in the near future. Relations between Austria and the GCC countries are improving, Awadi said. Austria has started dealing with the GCC ambassadors in Vienna as a

unified regional group, he said. "It is an encouraging sign for the future of relations between the two sides," he said. The GCC group is Austria's fifth largest trade partner. Thrived

He pointed out that the 1985 opening of a Kuwait embassy in Vienna contributed to strengthening co-operation between the two countries, particularly in economic fields. There is a possibility of expanding co-operation in informa-

Prequalification of Consultants

— for —

Consultancy Services — for —

The Study and Design of New Central Workshops at Ahmadi Kuwait Oil Company (KSC) invites suitably qualified and experienced Kuwaiti Engineering Offices/International Engineering Offices, who are capable of providing the above service and who wish to be considered for inclusion in the List of Tenderers for such work, to

obtain the requisite application forms from:-Kuwait Oil Company (K.S.C.) **Contracts Department** Main Office, Room No. 138

SCOPE OF SERVICE REQUIRED

The objective is to study the existing facilities and Company's requirements and produce a design for the New Central Workshops at Ahmadi, with associated facilities, to replace the existing Central Workshops.

The Consultants prequalified in accordance with this document shall be invited to bid for the study and design of the New Central Workshops building and facilities to replace the existing Workshop buildings and facilities at Ahmadi in accordance with the Company's requirements.

The study will identify all existing equipment to be relocated to the new buildings, facilities and additional equipment to be procured, together with all associated service requirements.

The Consultancy Services will also include detailed cost estimates for all aspects of the project, together with demolition of existing Workshop building and services, procurement of equipment and provision of all services from commencement to the commissioning including project management and site supervision.

Applications can be obtained during office hours from Monday 24th October, 1988 and must be submitted by not later than 1500 hrs. on Sunday 4th December, 1988. Applications received after this date may not be considered.

Kathak, Odissi dance recital in Kuwait

NOTED Indian dancers are to take part in a two-day dance recital organised by the Indian cultural committee in Kuwait.

Kathak dancer Kumkum Dhar arrives in Kuwait today for the shows on Thursday and Friday. She will be accompanied by Odissi dancer Ratna Roy and sarod player Dhyanesh

Kumkum, who has given several solo performances in the US, UK and Canada, is considered to be one of the foremost exponents of Kathak, a north Indian dance form blending Hindu and Muslim cultures.

Kumkum, who belongs to the Lucknow school, won the title of "Singar Mani" by the Sur Singar Samsad, an art group, in Bombay.

The world Kathak comes from "katha" — story telling. "The Kathaks" were originally story-tellers and rhapsodists attached to temples in certain parts of north India. During the Mughal period Kathak became a court dance, evolving in the Hindu royal courts in Rajasthan and appreciated by royalty in Delhi, Agra and Lucknow. Under the patronage of kings it became highly stylised. Two forms evolved the Jaipur school and the Luck-

Kumkum Dhar: noted Kathak performer

now school. The Jaipur school emphasised pure dance and rhythmic

wizardry and the Lucknow school preferred a more graceful, decorative, expressive

and sensuous style.

The dancers conceive space in straight lines, with only a front back movement. The human form is seen as a straight line with a few deviation from the vertical median. Footwork, fast pirouettes and mime are considered to be the dominant features of the style. Ghungroo tiny bells - are tied around the dancers ankles to enhance the complicated footwork. The

mony of movement and a whirl of action on the other. Kumkum Dhar has been critically acclaimed for "dramatic verve, control, sub-tlety and power." It is said that the dancer's performance have "engaging naturalness coupled with infectious joy."

style has a quietude and har-

Variations

During her two-day recital in Kuwait, Kumkum is expected to perform variations of such dances as Kavya Stuti, a poetic composition based on the work of Indian poet Tulsidas; dhrupad, based on a composition that emphasises footwork; nritta, pure dance; thumri, an expressional dance on the theme of love; kaliamardan, based on mythology; holi, displaying the exuberance of a festival; rang-e-mehfil, reflecting Mughal influence; Amir Khusro, amalgamating two

cultures -- Persian and Indian; and Daksha Yagya, a composition based on the mythology.

Odissi will be performed for the first time in Kuwait by Ratna Roy. This dance form originated in Orissz in eastern India and also evolved in the temples. One of the most lyrical dance styles, it reflects traditional concepts in iconography. Lost for 300 years due to political turmoil, it was revived in the early fifties by a handful of dancers. The dance combines elements of pure dance - body movement and

Sarod

Dhyanesh Singh will give a sarod recital. Sarod, a prototype of the lute, is a single piece instrument made of very light teak wood. The instrument has 19 strings — four carry the melody, four provide the drone and others are used to make rhythmic distinctions.

Dhyanesh, who is a noted sarod player, is the grandson of the legendary Ustad Alauddin

The dance performances will be held at the Indian Arts Circle, Funaitees, at 7.30 pm on Thursday and at 6.30 pm on Friday. For reservations please see What's On.

OPINION

Hold summit, save Lebanon

THE Baghdad meeting between the leaders of Egypt, Iraq and the PLO called for an emergency Arab summit to rescue Lebanon, which has been torn apart by civil war and destroyed by Arabintervention in its internal affairs.

The Lebanese people who have been fighting each other are divided into over 20 sects and more than 40 political ideologies. Some are motivated by political convictions, others by bribery and still others by directives from other countries.

Poverty and starvation may lead to co-operation with the devil. The people of Lebanon co-operated with the devil, motivated by their need and for their self-defence.

For the past 14 years, the Arab people of Lebanon have been paying the price of the disputes among Arab regimes. They have been killing themselves in support of an Arab regime against others.

The disputes among big powers is reflected in the price the Lebanese people pay. When the Soviet Union is angry at the US, a part of the Lebanese people will be hit, and when the US becomes angry with the Soviet Union, the pro-Soviets in Lebanon are hit. Even when the Israelis become angry at the Palestinians they strike against

This is the tragic situation of Lebanon, the country that houses 20 sects and a multitude of political trends.

Even during parties, people are killed in Lebanon.
Thus, the call of the three Arab leaders for an Arab emergency summit to rescue Lebanon must be accepted very soon.

The three leaders know the meaning of war and are well aware how much damage it brings. The three leaders experienced war for a long time and realise its pains and miseries.

Any hesitation or rejection of such a meeting is indeed not in line with the Arab national spirit. The Arab people do not want to see the small country partitioned into many tiny entities who will fight each other on behalf of other countries.

The Arab summit, if held, should put an end to the intervention in the internal affairs of Lebanon. The Lebanese people do not need delegations from outside to decide who will be the next presidents who will be the next presidents

For years, Lebanon has been living in accordance with a certain social structure. This structure did not affect its unity until Arabs began interfering in Lebanon's internal affairs. Such intervention destroyed the traditional agreements that upheld the structure.

The entire Arab world, and Lebanon in particular, needs an emergency Arab summit. This summit should stop the intervention by outside forces and countries in the internal affairs of Lebanon to avoid leading Lebanon

US-Philippine base accord signals problems

By Charles Aldinger

WASHINGTON, (Reuter); A doubling of US payments to the Philippines in return for maintaining military bases there high-lights a big problem for Washington's strategic planners.

The US pocketbook is shrinking while many allies are becoming more independent and raising their bills for allowing American troops and weapons on their soil.

"It's not a matter of who's right and who's wrong. The facts are that other nations, especially in Western Europe, are facing the politics of finance at home. And America no longer has endless dollars to help," said Simon Serfaty of the private Johns Hopkins Foreign Policy Institute.

"The Philippines got a lot more because those bases are special. But there will be times where tough choices might get

bases thrown out." He and other experts in and out of government said they were now watching tough negotiations between Athens and Washington over two dozen US

bases in Greece. Abandon

The government of Socialist. Prime Minister Andreas Papandreou has demanded that America abandon the key Hellenikon airbase near Athens. The base handles US reconnaissance in the Mediterranean and observes Soviet naval operations in the Black Sea.

Greece got \$344 million in US military aid in the last fiscal year but Congress, apparently also. with an eye on the talks, has not set a 1989 figure.

But the legislature has already stipulated that Greece will get only 70 per cent of the yet-unspecified military aid total which will go to Turkey, which borders the Soviet Union. The ratio rankles Athens.

Defence Department spokesman Dan Howard told Reuters Washington was pleased with the agreement to pay the Philippines

\$962 million in outright military, food and other aid over the next two years for use of Subic Bay Naval Base and Clark Air Base through 1991 when the current agreement runs out.

'At the same time, we have to take into account our own bud-getary problems," he said. "This should not be taken by others that we have endless sums to

In addition to the \$962 million. which is more than double the \$360 million Manila would have received under the current aid programme. Washington is pushing \$500 million in indirect assistance through the US Export-Import Bank and the

Overseas Private Investment

four smaller bases beyond 1991. "Was it all worth it?" asked one Pentagon analyst rhetorically. "I don't know. It would cost us a lot to move those bases, but we just don't have the money to keep doing this."

The Pentagon and State Department have complained loudly about a congressional move in recent years to earmark economic and military aid. providing fat minimums for israel, Egypt and a few other countries while giving government bureaucrats less control over the shrinking aid pie.

"A small example — we should be putting about \$200 million a year into grant military aid for sub-Sahara Africa," said one Pentagon official. "But that has shrunk from \$100 million in 1986, to \$50 million in 1987 to \$25 million last year.

"Sudan," he said, "went from \$100 million in 1982 to zero last

analysts noted, appeared to buck the high-price bases trend this year when it did not ask for any US military and

Jordan and Egypt willing to negotiate peace with Labour Party leader

By Paul Taylor

OCCUPIED JERUSALEM, (Reuter): The world seems to be backing Shimon Peres and his Labour Party in Israel's Nov 1 general election, but analysts say it may not help him win.

The United States and the Soviet Union have signalled their preference for Israel's conciliatory foreign minister over Prime Minister Yitzhak Shamir

and his right-wing Likud Party. The leaders of Jordan and Egypt have openly endorsed Peres and indicated their willingness to negotiate peace with him. Even the PLO appears to be try-ing to help the Labour leader. Divided

A top Egyptian official said Saturday's surprise Egyptian-Jordanian-Palestinian summit meeting in Aqaba-was designed to show Israeli voters that there is an Arab partner for peace. But nine days before the poll, Israeli commentators say

increasing foreign intervention,

some of it solicited by Peres'. aides, may be doing Labour more harm than good.

"Even people in the Labour Party were divided in their assessment of its actual effect on the voter, as some feared it might prove to be counter-productive," the English-language Jerusalem Post said in an editorial.

Opinion polls show Labour running neck-and-neck with the Likud, with neither party likely to win a clear majority. Shamir has reacted angrily to what his aides call a foreign conspiracy to prevent Likud from

winning the election.
In an ABC television interview last week, King Hussein of Jordan described Peres' proposals for an international peace conference as "very encouraging" and warned that a Shamir vic-

tory could bring "absolute disa-

ELECTIONS.

Shamir called the comments "damaging and harmful" and, in a line which may be popular with many voters, accused Peres of lacking national pride in solicit-

ing Arab meddling.
The tabloid daily Hadashot, which usually backs Labour, criticised Peres for helping arrange the Hussein interview.

"Gimmicks like his joint appearance with Hussein will not bring him any closer to his goals, and might move him away from them," it said. "Even Israelis who are critical of Shamir's policies are not thrilled that such criticism was ordered from Hussein by other Israelis.

Both Shamir and Peres have tried to use the international stage to bolster their fortunes at

By Ayse Sarioglu

ANKARA, (Reuter): A power struggle between Turkey's religious right and Westerneducated liberals in Prime Minister Turgut Ozal's ruling party has been thrust into the open by criticism of the state-run telev-

Some politicians want Turkey, which is predominantly Muslim but secular, to return to Islamic values, but others seek greater expression of Western culture

Ozal defeated a censure motion against Turkish Radio and Television (TRT) in parliament last week in spite of a split within his own Motherland

The motion, tabled by the cen-tre-right True Path Party (TPP), attacked Cem Duna, an Ozal aide who was appointed TRT director-general in April, and State Minister Adnan Kahveci, another former Ozal aide with liberal views whose portfolio includes TRT. It blamed them for TRT's alleged present ills, saying that the programming line they adopted croded Turkey's

moral values. Duna was also accused of allowing left-wingers to sneak into senior TRT posts.

Compatibility

He told Reuters in an interview: "Compatibility between Turkey's Muslim image and a Western outlook is no problem." 'Islam in Turkey is interpreted

in a very tolerant way ... as just the relationship between man and his God. From the Turkish point of view I see little difficulty," he said after the defeat

out in the cold

eral as a blood-thirsty tyrant.

cent result.

Now, the communists are being frozen out as 16 ideologically diverse opposition parties which joined in the anti-Pinochet "Command for the No" push for negotiations on changes in the constitution to break the power of the military.

The controversial 1980 charter provides for military dominance even after free elections due in December 1989. It explicitly excludes the communists from the political process.

Allies

Party leaders, pointing out that their followers contributed to Pinochet's defeat, say they are prepared to enter alliances in the transition to democracy and serve in coalition governments once open military rule ends. There are no takers for the

The Christian Democrats, the biggest party in the coalition against Pinochet, have already ruled out the inclusion of the communists in a post-Pinochet government. The socialists, one-

time communist allies, joined "Command for the No." Fraud

Most opposition groups consider the communists a liability, not least because they are believed to be behind Chile's most active guerrillas, the Manuel Rodriguez Patriotic Front (FPMR).

The Front failed in an 1986 bid to kill Pinochet and has been blamed for bomb blasts, attacks on military targets, and kidnap-

while the communists deny any formal link with the FPMR. the party has refused to renounce violence and sticks to a 1980 policy statement which supported "all forms of struggle ... overtly or covertly, peacefully or violent, in answer to government

Through most of its 66-year history, the party played by parliamentary rules and this statement marked a major departure. It was adopted in response to what the opposition saw as blatant government fraud in a

plebiscite on the constitution. Political scientists offer differmy explanations on why communists have limited success on a continent where brutal social injustice and a huge gulf between rich and poor should provide an ideal breeding ground for Marxist militants. In Chile, one reason for the

decline in communist strength appears to be the party's traditional authoritarian structure and its insistence on unquestioning obedience. After 15 years of imposed authoritarian rule under Pirochet," said a Latin diplomat,

"many people see no reason to subject themselves voluntarily to authoritarian methods by a party."
The party's Stalinist methods of dealing with dissent were thrown into sharp focus by the case of actress Maria Maluenda. A member of the party for 30 years, she was thrown out for

opposing the initial decision to boycott the Pinochet vote. Abducted

Her son Jose Manuel Parrada was one of three communist March 1985, and found with their throats slit in a ditch outside Santiago. The investigating judge said there was clear

evidence of police involvement. Maluenda's late husband. actor Roberto Parrada, was a friend of Pablo Neruda, the Nobel prize-winning poet who served on the Central Committee

at the time of Pinochet's coup. Struggling to hold back tears, Maluenda said in a recent interview with Reuters: "They said I had violated party disci-pline ... They said I had taken a centre-right stand They said I must be separated from the

of the censure motion. "The West, or Europe, to me is a set of values. If you share those values you are part of it," he

added.

The Holy Alliance group of politicians with Muslim fundamentalist leanings in Ozal's Motherland Party had said it planned to vote with the TPP and other opposition parties.

Political sources said up to 100 Motherland deputies were prepared to vote with the TPP. led by Suleyman Demirel, a fourtime prime minister and a vowed political foe of Ozal. Ozal has 291 seats in the 450-

seat parliament and such a shift of allegiance would have held the vote in the balance.

It was the first time the Holy Alliance, led by Mehmet Kececiler and Mustafa Tasar, had planned to openly defy Ozal, who sees Turkey's future pinned firmly to the West. But Ozal, who applied last

year for full Turkish membership of the European Economic Community, managed to reach an uneasy truce to avert a split by warning of the dangers and promising a special committee to keep a closer watch over TRT.

And in the event, he defeated the censure motion on a show of

The row over TRT is part of a 65-year-long struggle involving Western tenets behind the modern Turkish republic and a relatively small core of Muslim

The religious right opposes Turkey's Western outlook and the distance it has put between itself and the Islamic way of life since Mustafa Kemal Ataturk founded the republic in 1923.

Adherents of an ill-defined philosophy of a "Turkish-Islam synthesis" held sway over TRT before Duna's appointment.
"Groups of devout-looking
TRT personnel who used to loaf in the corridors but disappear at noon-prayer time are no longer around since Duna took office."

one TRT staffer said. Television, broadcasting 130 hours a week on two channels, now reaches 92 per cent of Turk-

ey's 54 million people. Duna, 41, unperturbed by the political tempest around him, said he felt hurt for a short while after taking office by the sometimes insulting barrage

from politicians. "Of course you mind the fact that you cannot come out and say something because that would be taking you right into polemics, which is what is intended. And then you would be dan-

cing to their tune," he said. Duna said TRT will soon air a series of programmes on the

A second series will explain what has happened to other member countries on entering the Community and what membership has added to or subtracted from that country," he said.

Return to the future

With the successful launch and return of America's space shuttle Discovery, hopes are once again revived that man's journey into space is only beginning. This article examines some of the areas of future space travel.

By Adrian Berry

THE flawless flight of America's space shuttle Discovery has been aptly called a "return to the future."

The five astronauts have not only restored faith in NASA's immediate shuttle ambitions (about 50 flights are planned in the next five years); they have revived hopes that man's journey into space is only begin-

ning.
Within 30 years, the foremost experts believe, the reach of our technology will have extended from the present 22,300 miles — the height of communication satellites — to more than 40 million miles, the

distance of Mars. Permanently manned space tations, settlements on the Moon and Mars, the mining of the asteroids - all these will become possible with the assured safe access of people to space; and hydrogen-powered aerospace planes will eventually make the journey up into Earth orbit even cheaper.

The first 200 miles, from the ground to low Earth orbit, is by far the most difficult to travel. For we live at the bottom of a well of gravity" created by the Earth's large mass. Ninetyseven per cent more energy is needed to travel those 200 miles, to climb out of the well. than to cover the remaining quarter of a million miles to the Moon — and beyond.

But how do we reach the Moon and beyond? Routine access to space will lead to the construction of the 40 ft-long manned space station, Freedom, that America and Europe plan for the 1990s.

Europe will play its part with the forthcoming Ariane-5 rocket carrying the manned Hermes craft to the station. But while Europe looks to Freedom mainly for industrial research in weightlessness (expected to create 100,000 spin-off jobs in the next 20 years), many

American experts see it literally and metaphorically as a laun-ching pad for manned flights to the planets and the construction of permanent bases on

The visionaries have set their hearts on Mars, a world with a land surface nearly as big as Earth's with red sandy deserts, pink cloudless skies, chasms wider than the Grand Canyon and mountains taller than Everest. At a conference last month in Geneva, top American and Russian experts agreed that they wanted to build a permanent Martian set-

tlement Dr Thomas Paine, former administrator of NASA, and chairman of President Reagan's National Commission on Space, believes the first manned expeditions to Mars, instead of returning home almost immediately, as the Moon astronauts of the Seven-

ween us and the Moon. Settlers would need to be entirely selfdependent. If, in an emergency, they sought advice from Earth by radio, it would take at least 20 minutes to arrive. Before even going there, astronauts would need the experience of living in another world: the Moon would become a vital way station.

But Mars never comes nearer

than 160 times the distance bet-

selves safe habitats."

Even before 2010, the year predicted the first manned Mars expedition, the Moon could be covered with industry and habitation. "We've passed the state of tossing out clever ideas for the future of the Moon," I was told by Dr Wendell Mendell of NASA. "We've now started to make hard calculations.

If such dreams are realised, there will be a huge lunar port for ships from Earth orbit. The

Permanently manned space stations, settlements on the moon and Mars, the mining of asteroids - all these will become possible with the assured safe access of people to

ties did, will become the nucleus of a permanent colony.

Mars is about 50 degrees colder than Earth, and its air is only about one per cent as rich. Nonetheless, Paine told the Geneva conference, "there is easy access to substances vital for life, like hydrogen, oxygen, nitrogen and carbon. The settlers will be able to obtain water from the Martian atmosphere using a condensing machine. They will be able to breath recycled air. And frozen dried food will enable them to survive for

very long periods."
They would be able to stay for at least two years until a second expedition relieved them. "They could exploit the extreme cold by mixing freezing water with soil to build them-

Moon will have factories, power stations — even tourist hotels. (Holidays, albeit for the very rich, could be available at the end of the century and I have in fact booked a double room in the Lunar Hilton).

Its mountainous far side will be the perfect place for astronomical observation, which, on Earth today, is imperilled by light and radio pollution. The Moon is so plentiful in

industrial raw materials that futurist Ben Bova sees it as the "hub of the solar system." Its main export may be liquid oxygen, the chief component of rocket fuel. This can be manufactured quite cheaply on Earth; but carrying it into Earth orbit, because of that gravity well, will be far more

expensive than making it on the Moon and sending it down.

Such cargo will be most efficiently launched from the Moon not by rocket but by railway. Imagine a sharply rising magnetic rail track, several miles long, that shoots cargo into space at 5,000 mph, the speed necessary to escape from the Moon's low gravity. Cargo thus ejected could be intercep-ted at any desired point bet-ween the Earth and the Moon.

Another invaluable lunar resource will be the isotope belium-3. This will be needed if the world's scientists can achieve on Earth the nuclear fusion which takes place every second in the core of the Sun and thus provide us with everlasting clean energy. Helium-3, combined with deuterium (heavy hydrogen), could produce a nuclear fusion reaction without the danger of radiation by neutrons. The first working fusion reactor is not expected before 2020, though a prototype may come within 15

"If you found gold bricks on the Moon," says Prof Jerry

Kulcinski, a nuclear engineer at Wisconsin University, "you couldn't affort to bring them back. But if today you could bring back a spaceship containing 20 tons of helium-3, your cargo would be worth \$40,000

But it would be absurd for the great powers to get involved in a race to exploit Mars. "We

the Red Planet bears traces of life from a warmer, lusher Martian age 500 million years ago. Yet Mars is not the only long-term goal. Travellers of the solar system will go also to the asteroids, the tens of thousands of tiny planets that lie between the orbits of Mars and Jupiter. They have what the Moon appears to lack -

The Russians are determined to send people to Mars, no matter what it costs. Despite the negative findings, they are convinced that the Red Planet bears traces of life.

don't want any repeat of the pointless Scott-Amundsen race to the South Pole," said Prof Bruce Murray, director of the Jet Propulsion Laboratory at Pasadena, California.

Determined

The Russians are determined to send people to Mars, no matter what it costs. Despite the negative findings of America's unmanned Viking landing in 1976, they are convinced that

water, the source of liquid hydrogen, another essential component of rocket fuel. Asteroids will be the solar sys-

tem's "petrol stations." But why should people want to populate the solar system? The question has no rational answer. Dr Paine hopes for the "enrichment of the human spirit." Another answer might be that man is an untiring wanderer who will go wherever he

Is man machine?

By Rushworth M. Kidder

THE other day an acquaintance, apologizing for forgetting something, quipped, "It's my 64K memory!" His analogy, recognizable to anyone working with computers, compared his brain to a memory chip limited to a puny 64 kilobytes of information. As Charlie Chaplin knew, the idea of man as machine is per-petually funny, so we had a pleasant laugh.

But humour sometimes reveals humanity's deepest concerns. And one of those, today, has to do with the nature of man.

Is man really a machine? In particular, is the mind a kind of computer? In developing the computer, have we simply created a metaphor of ourselves?

Never mind that centuries of philosophy and theology rise in objection to that metaphor. Our resolutely mechanical age seems bent on seeing man as a computer. Not surprisingly, that view shapes our mental climate in several ways:

— Failures of memory.

If our educational researchers are to be believed, we're becoming an increasingly ahistorical society. The collective memory of the race, it seems, is fading: Fewer and fewer historical examples dot our political speeches and our daily discourse. Nor, it appears, are students required to memorize facts, formulas, prose, and poetry as they once were.

Complex Why the change? The

reasons are complex. But one of them, surely, has to do with changing views of man. If the mind is but a computer, it's got only a finite capacity for memory. Overload it, and the whole thing will (as the com-puter folks say) "crash." So why (the argument goes) risk mechanical failure when there are plenty of other data bases besides the brain? Why learn what you can look up? - Literal interpretations.

We're plagued today by blindly literal readings of things. In law, in religion, in government, in the arts — and, sadly enough, in the newscasting that reports on these things — we're beset by the letter rather than the spirit. Even our political campaigns collapse into petty squabbles - not over what the candidates intercommunication offered no subtleties, no nuance, no symbolism, no ranges of meaning beyond the

Again, that's computer-mindedness at work. Computers can't think, can't interpret, can't fill in the unspoken but understood spaces. Case in point: Someone told me recently about a computer-training exercise that asked her to programme in a cake recipe. She got it wrong. Reason: She typed in, "Add two eggs." The computer, knowing no better would have tossed them is whole, shells and all. It needed to be told to break them first.

- Amoral reasoning. These days, the news gives us plenty of examples of immortality. The fact that we're disturbed by these stories proves that, somewhere deep in consciousness, we still care about uprightness. More troubling, in some ways, is amorality - the moral void of naive tolerance, baldly denying that some standards, behaviours, or thoughts are better than others. Computers, like all other

machines, are amoral. Whether you use the computer to write pornography or sermons makes no difference: It's not affected by what it "thinks." If the man-as-computer metaphor holds, we should be able to think, read, watch, and say whatever we want without it affecting what we "really" are.

Fortunately the metaphor doesn't hold. Thinking, as the health professions increasingly realize, does indeed affect the body. And in the end, humanity has reserves of memory. insight, and morality beyond anything a machine could

The benefits of computers? They're very real. This column, for example, was written on one. But it wasn't written by one - a point worth pondering in an age when the forgetful, the amoral, and the literal sometimes seem to have the keyboard all to themselves. 1988, The Christian Science

By Alun Anderson

A UNITED STATES expedition to the Antarctic has returned with the discovery that the frozen winter sea ice is teeming with life.

face of the Antarctic sea ice is a vast new ecosystem: a labyrinth of narrow tunnels and chambers that offer a cold but secure home to algae, bacteria and large numbers of krill, a shrimp-like crustacean.

The expedition was the first to mount a prolonged study of winter life in the Antarctic ice pack. A team of 45 scientists drawn from specialists in the United States, Chile, Norway and Denmark - used the Polar Duke icebreaker to penetrate up to 150 miles into the frozen Weddell Sea, a thousand miles south-east of the Falkland

Adapted

Working around the clock in 12-hour shifts, the team took samples of water from different ocean depths and went out on to the pack to drill out cores of ice. Scuba-divers used dry-suits to collect organisms from beneath the surface of the ice.

The US expedition found that very little of the Antarctic sea ice is clear and solid like the ice cubes made in a refrigerator. Most of it is more like Gruyere cheese, riddled with holes and channels that lead down

Teeming life under the ice

through the six to eight feet of floating ice to the cold sea water

Inside these channels the scientist found large numbers of algae and bacteria clinging to particles of ice. Even in midwinter, when the sun comes above the horizon for just a few hours each day, the algae are able to go on tapping the energy of the sunlight.

The algae are specially adapted to the cold. They grow hapgrazing on its algal-covered walls. But the krill's predators fish, squid, penguins and whales - are much too large to get in after them. When summer comes the krill's home will melt around

them. But the meltwater also provides the right conditions for rapid growth. The melt water is fresher and lighter than ordinary sea water and forms a stable floating layer that traps algae keeping them from being swept into the dark ocean dep-

Instead they float at the surface where sunlight is strongest. The result is a rich, ice-edge algal bloom that colours the

As the algal population booms so does that of the krill —and then the whales, fish and penguins arrive to feast upon them in their turn. The ice edge provides a moveable feast. As the ocean warms, 80 per cent of the Antarctic ice will melt, spilling fresh-water and seeding i with algae and krill as it recedes.

And as whalers knew as far backs as the turn of the century, whales follow the krill and are always found in greater numbers where the ice ends and the

oceans begins.

The area of ice is enormous. At its maximum it extends a thousand miles into the southern oceans all around the Antarctic continent. Researchers have only been able to venture into its fringes.

Get ahead of the pack...

TERM REFERS TO 1968 OUTBREAK OF VIRUS

pily at sub-zero temperatures but in a cool room they just

"fall apart and die", according

to Cornelius Sullivan, the

expedition leader and a profes-

sor of marine biology at the University of Southern Califor-

Feeding on the algae are large numbers of juvenile krill.

To them the sea-ice is a hospita-

ble nursery. They are small

enough to swim around in the

channels that riddle the ice,

QUESTION: A friend of mine, when complaining of stomach upset, uses the term "Norwalk tummy ache." What does it

FAMILY DOCTOR
By DR ALLAN BRUCKHEIM

ANSWER: In 1968, in Norwalk, Ohio, an outbreak of gastroenteritis in a school was attributed to a virus that has since been called the Norwalk virus. Stool samples were obtained and found negative for bac-teria, so a search for a possible viral agent was begun, and when it was found it was named after the town where the outbreak first occurred. The term has become popular in describing viral stomach upset.

Outbreaks of this type of gastroenteritis occur in all seasons of the year and among every age group. Outbreaks seem to spread through a number of different ways, including food, drinking water and infected people. The duration of the infection lasts from several days to several weeks, and those most susceptible seem to be the younger age

Since you gain no immunity with the first

bout, you may experience its effects more than once in your life. It's definitely a disease that is highly infectious, so if your friend does have a Norwalk-type virus, she would be well advised to take precautions against

Symptoms of this virus are the same as all of the other that cause stomach problems, flu-like aches, pains and fever, and include vomiting, diarrhoea, chills and headache. Specific remedies are just not available at the present time, so your physician's advice would be to rest, take plenty of fluids and wait it out. Incidentally, eating raw clams has been attributed as a cause of the Norwalk-like virus in some cases, so be on

QUESTION: I'm not a drinker, but I have a beezer that would put W.C Fields to shame. It's embarrassing, and I am at a loss to explain it. What can I do for my red nose

that's growing? ANSWER: There are number of treatments that may help your red nose, a condi-

tion known as rhinophyma. The antibiotic tetracycline may be useful, as may the vitamin A acne treatments Retin-A (applied to the skin) and Accutane (pills). If medicines don't work, surgery and other medical procedures, such as laser surgery and peeling of the skin surface, may be effective.

It's true that there is a common impression that this is an "alcoholic's nose" but there is little scientific evidence to back that up. Many doctors believe that avoiding spicy foods and caffeine can stop or slow the redness and swelling. Although, here again, there are not yet any solid studies to prove that these foods are truly the culprits, it's certainly worth a try to eliminate them from your diet and see if it helps.

If all else fails, and surgery is not for you, you might consider using cosmetic makeup and powder to reduce the redness and diminish the attention your nose may be

1988 TRIBUNE MEDIA SERVICES, INC.

SAM PITRODA'S story is a classic tale of rags to riches. A carpenter's son from a remote village in Orissa, India, makes millions in the US - and realises the American dream.

Then, the most celebrated non-resident Indian, out to create the 'Indian Dream' makes a dramatic comeback to his roots with a one rupee (100 fils) salary per year, rising higher and higher as the "messiah of hi-tech", dubbed the whizkid — the peak yet to

aide, and everyone suspected

him of angling for a political niche. Gandhi approved his

plan and C-Dot was given 36

months to deliver the goods.

And Pitroda, working against

odds, did the job, silencing his

(in India) is not a joke. It's a

major challenge, you'd better

believe it," he says. Gandhi was

so pleased with Pitroda's per-

formance that C-Dot got

another 36-month assignment

to design an integrated systems digital network.

On Oct 2 last year, Pitroda

quietly entered the inner circles

as Gandhi's adviser on tech-

nology, holding the rank of a

minister of state. Yet, he claims

he has "no political ambitions;

Pitroda's task is to look after

five major national missions:

drinking water, oilseeds, eradication of illiteracy,

Can Pitroda handle the daun-

ting tasks?
"Don't expect me to have all

the answers. I can do what I can

do but WE (the masses) can do

it," says Pitroda, the man who

has his heart set on transform-

ing the technological scene in

India.
"For the first time we are

trying to bring technology

closer to people, mobilise man-power and resources and use

them the best way we can in the

given circumstances," he

"India is trying to "demystify technology". "To us, technology is basically a method of problem solving," he says, insisting that technology "is not glamour — hi-tech, computers and electronics".

Strategy

also technology," he says. It is the basics that they are after.

And India is conveying this

grassroots message to the "highly motivated, bright

"Growing a better plant is

and electronics.

immunisation, and telecom.

I'm not lying. I don't need it."

"Making a telephone work

For Pitroda coming home means more than realising a dream. "You have a dream, I have a dream, we all have a dream. But that is not the point; it was the right time to go home - to do things that needed to be done.'

Pitroda dreams with his

eyes open".
Intertwined with this success story — a sub-plot unfolds, linking the future of millions of Indians, 250 million living below the poverty line - looking up to the Indian government to build an infrastructure and provide basic necessities like water, health care, seeds and literacy, and not necessarily in that order. For urban Indians, one of the most pressing need was for a telecom system that worked - and technology that would serve the

needs of a developing society. That's where Pitroda came in three years ago, fathering the Centre for the Development of Telematics, better known as C-

His simplified mission was to make telephones work, updating an antiquated network that had driven a high official into the telephone exchange brandishing a gun. The task was not all that easy.

At any given time, four out of 10 phones don't work in Delhi, and seven of 10 in Calcutta. Bombay is better —seven out of 10 actually work. In a country of 730 million people, there are only three million phones in urban areas and a mere 36,000 public phones.

Pitroda's job was to design an electronic switching system. The mission was a major challenge for Pitroda the "telecom wizard". The bureaucracy scoffed at his ideas and others saw him as a 'political wolf". Pitroda was "Rajiv's man", a close Gandhi

'An opportunity of a lifetime'

Realising the Indian dream

Sam Pitroda, the Indian guru of high-tech, made a brief stopover in Kuwait last week. In this in-depth interview he talks to Fathima Ahmed about his mission to bring India into the 21st century.

world after the US and USSR. "Manpower is not the issue," he quips, "the issue is equipment - it costs money. How are we using it? Are we using it effectively?" he asks, and answering the question himself

says: "No, we are not." Pitroda's long-term strategy is clearcut: identify areas for development; study the needs and fill in the blanks. Simple? Not really, not in a traditional society with die-hard attitudes and prevailing reservations; and persistent resistance to

Adult literacy is one of the most complicated programmes. "It is very difficult to sell; (it's) not easy to motivate people because there you don't have any tangibles, deliverable and measurable. Tell people to study, they ask you if you'll give

them a job," he says.
Literacy, Petroda believes, has been misrepresented. "Getting a job has nothing to do with literacy. You need literacy to have dignity, to understand your rights and participate in the process of development.

What about modernisation?

Catching up with the West?
"Catching up with the West is not the game — the game is that we have one set of problems — we've got to solve them, using the best available techniques, methods and tools. We're not trying to copy anybody or measure ourselves with x-y-z. Our target has to be (provision of basic necessities for) 250 millions (people living) below the poverty line."

What can India do? We don't have water testing labs in every district. I'd like to set them up in every block. We have no vaccine testing labs. that's our priority. We are aiming for basic technology. We don't have any esoteric goals."

youngsters, the future builders They have set the targets: provision of drinking water to 100,000 "problem" villages by India has the third largest scientific manpower in the

the 1990. (Problem villages are those which have no water within 1.6 km diametre.)

"We want to supply 40 litres of water per day per person and 30 litres of water per day per head of cattle; water which is potable, free of guinea worm, excess flouride and excess iron' he said. To deliver this, they need to provide the infrastructure like setting up water dis-tillation plants to remove, brackishness excess iron and

Target Immunisation: provide vaccines for 20 million pregnant women and 20 million children every year.

Target Telecom: by the year 2000, 30 million phones and three million public phones; growth in rural telecom. integrated telecom development.

Target Self-reliance: "Self-reliance is not exportimport. It is learning to do things on our own. To create jobs for our people so that we can maintain and manage our own technology. If we import technology — lock-stock and barrel — what can we do?"

"Why should we import vaccine. We have bio-technology expertise. Why can't we make our own?

And, so with the govern-ment's blessings, Pitroda is trying to steer the country toward

Mobilising resources and har-essing technology, in the right "(It is not) a question of right or wrong direction. The best

direction is to use technology to meet basic needs, create an atmosphere....." says Pitroda. Are you creating an atmospbere? "I hope so, I certainly hope

so ...we're trying ... doing our best," he says, his confidence sags a little.

What we need is a national campaign of awareness. These (the six-point national mission) are people's programmes, not governmental programmes. We have been trying to implement them as governmental programmes for the last 40 years (without success); with-

out mobilising people these things cannot be accomplished. But have you got your priorities right?

"Don't ask such questions," he chides. He was given the sixpoint national mission, and he

is organising it.
When Pitroda speaks his words seem honest even if his ideas seem implausible — at times. He sounds like an idealistic visionary. In reality, he is a practical management man. There is a degree of truth in his message to Indians: "Look around you, and make the best of what you have."

"Our message of modernisation needs to be articulated. That's why we need information — standardised, organised; format information (which is accessible). This is essential (in India) for social transformation," he says, pauses and then comes out with it: "Not too many people want to share information.

This is not the only obstacle. Pitroda's disdain for bureaucracy is common knowledge.
"It's there. What can be

done? It (bureaucracy -- the system) is there. I don't care if it takes 15 minutes to do a job, but if it takes three hours there is something wrong somewhere; a lot can be done, a lot should be done.' By whom?

Éveryone. You, me and everyone else. We're all trying our best," he mutters. Pause. Then, he spills venom.

"We (Indians) are cynical people. We externalise our problems. (We say) the problem is there, this should be done; that should be done. people say there is a lack of political will, there is no commitment and so on.... But no one says 'how are we going to get things done within the given

Pitroda tells you:

"We must learn to internalise our problems. We need more concerned, committed and courageous people. We have concerned and committed people, but we don't have courageous people," he claims, and relates an interesting story of a youth who wanted to "advise the prime minister on run-

ning the government."
"Everyone gives advice; no one has the courage to take responsibility," he says. What good is rhetoric when you can't make the system work? he asks.

Pitroda certainly knows what makes him tick. A workaholic by admission, he believes his job is to "get out of a job within 90 days." He is adept at doing that — first in the US, where he built his multinational million dollar empire from scratch and turned a new leaf, looking at bigger and better things, attacking the job at hand with animal ferocity. Fiercely ambitious, despite his claim to the contrary, he seems committed to improve the lot of the hanless Indian, now that he has been given the chance -"an opportunity of a lifetime."

His enthusiasm is infectious, though his dream seems unrealistic.

"Everything is practical. It's hard to say how close or far I am to realising the Indian Dream. AT C-Dot, the dream has been realised, in water the dream is 70 per cent realised, oilseeds, we have realised the dream because of good rain. immunisation we're struggling, literacy - a difficult task and C-Dot, the dream has just

Pitroda — the man — has had his moments of glory. Pitroda the adviser is a team player, a delegate, trying to create an environment where "we all — the under 55-yearolds — feel we have the same

He writes-off "anyone with gray hair — they should take a back seat." But even the grayhaired people have a role to play: "To build a people."

Sam Pitroda: committed to improving the lot of the hapless Indian

"We don't have enough leaders. I'm not talking about political leadership. (Referring to) people who can solve a problem or take respon-

sibility," he laments.
Pitroda is 45 and believes he has 15 more years of "active participation" during which he hopes to transform the technological and, hopefully, the work culture in India, awaken Indians from their slumber and motivate them to take the initiative and create a better

Will be succeed? "If I can get 20 million phones working by the year 2000, and I reach 80 per cent of my target, I'd be a happy man.

What is important is to set high targets. Never mind if you can't reach them. Coming close (to targets) and going toward them is what matters.... Pitroda's present target among other things, is female

literacy. "It is critical. If you have female literacy, you have child health, low infant mortality, family planning and husbands become docile ... and everything falls into place." Will it really? "I'm verbalising my con-

cerns, mobilising the young. talking to them, and in doing so I put my foot in my mouth." He doesn't care. "It is the privilege of critics to criticise. It is my job to get the work done," he says. And going by Pitroda's past record

- 90 patents in the US, earning a comfortable cache of millions of dollars and a reputation for entrepreneurship — he means

business At 42, he returned home. Last year, he got back his Indian nationality. "There comes a point when you have to decide where your priorities lie. I couldn't do what I wanted to do holding US citizenship." Now, he is an Indian - and "not a great communicator."

But a great organiser. He plans his day, his week. his months and his years. And he has no time. "I've got everything except time. There not enough days in a week, not enough weeks in a month, not enough months in a year." He's trying — unsuccessfully — to organise time — while he works on bringing technology closer to the masses — perhaps to realise the Indian Dream.

"We have a feudal way of looking at things. We are a democracy, people power, instead of running to the government for everything, we must see how we can help ourselves first.... India now has the task of converting a system from one based on ordering people to one based on empowering people.

Whether this happens or not only time will tell. But it is cer tainly an exciting process of change — envisaged by Sam Pitroda, born Satyen Gangaram Pitroda.

Pass 2 NT 3 ◊ 3 NT Pass 3 V Pass Pass Pass Pass Opening lead: Queen of 🖢 Declarer has a great advantage over the defenders. He knows when the defenders have enough fast

tricks to beat him. That information

is not available to the enemy, so

they do not always succeed in getting their due. North's three-diamond response was a transfer to hearts, and his bid of three no trump showed a balanced hand which included a fivecard heart suit. South might have heen wiser not to have converted to four hearts-three no trump would have been defeated only if the opponents could take five diamond tricks on the go-but, not unnaturally, he was concerned about his wide-open diamond holding.

West led the queen of spades, and declarer was not overjoyed with his prospects. It seemed that he had three sure losers in diamonds and one in clubs. However, the spade lead offered a temporary reprieve. With a good slice of luck, he saw a line that would get him through if the defenders did not find an immediate diamond shift. Declarer allowed West's queen of

spades to win the first trick! From West's point of view, a diamond switch was not attractive, so he continued with a spade despite his partner's discouraging three-spot. That was won in the closed hand, and the king-ace of trumps were drawn. On the remaining high spade declarer discarded a club. After cashing the ace-king of that suit, he continued by ruffing a club on the board. When the clubs split evenly, the long club in declarer's hand was established. He came back to hand with a trump, discarded a diamond on the good club and cheerfully surrendered two diamond tricks-making

You would do well to show : little more goodwill towards others. You should do all you can to avoid allowing your emotions to get the upper hand. Make quite sure you are not late for an appointment. Be amenable.

Today you are all too liable to jump to wrong conclusions. You should try to concentrate on essentials. Try not to get in other people's way. Be cheerful.

Pisces (Feb 19 - March 19) You should let others express their opinions. You will have some ideas but they will not all be good. Once you have made up your mind have the courage of your convictions. Be courteous.

World Business Summary

Venezuela calls for end

to OPEC overproduction

CARACAS, Oct 24, (Reuter): Venezuelan President Jaime

Lusinchi has called for an end to OPEC overproduction, saying it

does not favour any of the oil-producing nations, the official news agency Venpres reported yesterday. "We are worried about the oil problem, which is fundamentally due to overproduction,"

Venpres quoted Lusinchi as saying. "What is being sought at the price committee meeting in Madrid and other upcoming meetings

is to discipline the actions of the different OPEC members and

they should finally understand that overproduction does not favour any of us." "(This is) because prices deteriorate when the oil market is flooded," he said. "In all this there's much political

gameplaying." The Venezuelan President's remarks, made dur-ing a tour of a water treatment plant, coincided with the close on

Saturday of an inconclusive three-day meeting of eight Organisa-tion of Petroleum Exporting Countries (OPEC) ministers in Madrid aimed at curbing production and bolstering prices. The eight ministers, from Algeria, Indonesia, Kuwait, Nigeria, Saudi

Arabia, Venezuela, Iran and Iraq, begin another meeting in Vienna on Nov 17, ahead of a full 13-member meeting on Nov 21.

BUSINESS & FINANCE

Egypt, IMF try to thrash out their differences

CAIRO, Oct 24, (Reuter): An International Monetary Fund (IMF) team started talks today with Egyptian officials aimed at settling differences about the way the country's economy is

being run.

The team met Central Bank
Governor Salah Hamid and was expected to meet other cabinet ministers, an IMF official said.

The IMF wants Egypt to slash its five-billion-pound (\$2.2billion) budget deficit, increase domestic interest rates and reduce subsidies on fuel and

Egypt is resisting the IMF requests and wants to go slow on economic reform to avoid a repeat of the unrest that broke out in 1977 when subsidies were

Efforts

The talks follow President Hosni Mubarak's efforts during his European trip in September to win support for his economic

France announced full support for the scheme while Britain and West Germany promised to study it. Other creditors, including

Kuwait, also promised support. Egypt had rescheduled by the end of June payments of more than \$6 billion on its \$43-billion foreign debt.

OAPEC discusses 1989 budget

KUWAIT, Oct 24, (Reuter): The executive board of the cashstrapped Organisation of Arab Petroleum Exporting Countries (OAPEC) discussed its 1989 budget today ahead of a ministerial meeting next mouth, a spokesman said

OAPEC groups Algeria, Iraq, Kuwait, Libya, Qatar, Saudi Arabia and the United Arab Emirates — all members of the Organisation of Petroleum Exporting Countries (OPEC) with Bahrain and Syria.

Projects The organisation, formed in 1968 to promote joint Arabicsergy projects, has suffered. from the drop in its members' oil revenues since world oil prices began to fall in 1982. The 1988 budget was slashed 40 per cent from 1987 to 1.3 million dinars

Industrial output climbs

China puts brakes on overheating economy

BEIJING, Oct 24, (Reuter): China's Communist leaders are grappling with problems that might even have vexed Karl Marx.

To counter the worst inflation since the Communist Party took power in 1949, the government has halted key price reforms, once central to a reform programme begun 10 years ago.
"If Marx himself were in

charge of the economy, I'm not sure he would know what to do," said leading economist Tong China is looking for ways to cool an overheated economy and

cut soaring inflation partly fuelled by panic buying. Surged While agreeing to maintain China's opening to the West, there is little consensus on any-

thing else. inflation — almost unheard of just 10 years ago — surged by more than 16 per cent over the first nine months of this year, according to official figures.

China has not disclosed the rate for September, but the most recent monthly figures showed inflation topped a year-on-year 19 per ent in July. Foreign econ-omists say it might be higher.

Industrial output climbed 20 per cent in September, and officials have said inflation helped fuel the rise.

In August, bank runs were reported in Shanghai, Canton and the northeast city of Harbin. Fearing further price rises, people rushed to get money out to buy goods. Panic buying led to shortages of towels, soap and sait in a number of cities. There are already signs of

growing labour unrest. At least 49 strikes occurred in the country in the first half of 1988.

The blame has been placed squarely on price reforms, desig-

ned to stimulate production and end shortages by raising prices long held artificially low by huge

Price rises had "exposed complaints from citizens" and "made many people uneasy," Premier Li Peng said this month. Public order and people's faith in the reforms were badly hit, he said.

"Price reforms must move in step with other reforms," Li told a meeting of the State Council (cabinet).

"You don't send a single soldier deep into enemy territory without support," he said.

The retreat from price reforms has raised questions about who is shaping China's economic policy, leading to speculation that Communist Party chief Zhao Ziyang, long an advocate of fast growth, is no longer in

But economists and Western diplomats say that, while Zhao's

the 1987 stock market crash, and

also a wave of restructuring in

the food industry as big compan-

ies combine into international

star may not be rising, he has accepted slower growth.

China's top Communist Party body, the Central Committee, last month put its seal of approvai on the slowdown, saying it would take the next two years to strengthen the strained economy before resuming price reforms.

Ideas

The inflation target for next year is under 10 per cent, but diplomats say it could double.

Since 1978, China has opened the door to Western investment and technology, adopting ideas that were once shunned as 'capitalist' in a bid to modernise

its economy.

While Chinese leaders take pains to say that has not changed, they are less clear about how to proceed with reforms.

Chinese economists and Western diplomats say that Beijing faces hard choices - it must cut

government spending and give the central bank more power to tighten the purse strings.

But tough measures are certain to provoke resentment, particularly from local governments that have benefited from the fastgrowth policies of recent years.

"Each region is competing to outdo its neighbours with investment projects," said Tong of the Restructuring Society. "We all know we must cut back but no one listens."

Spending

China has warned of new cuts in capital spending. State television has shown film of half-finished hotels and other construction projects abandoned because of lack of funds.

But many people remain sceptical. Authorities ordered a 20per cent cut in construction spending this year but spending still climbed 15 per cent between Jan-

Iran to export more oil to Yugoslavia

TEHRAN, Oct 24, (OPECNA): Iran is to export over 330,000 tons of crude to Yugoslavia following an agreement signed in Belgrade after five days of negotiations, it was disclosed here. Iranian Economic and Financial Affairs Minister Mohammad Javad Iravani said that under the accord, total trade between the two countries would amount to at least \$400 million annually, up sharply from the 1987 figure of \$256 million. Yugoslavia's oil imports from Iran have amounted to 600,000 tons in the first eight months of this year. In 1987, crude purchases totalled 710,000 tons. Iravani, who headed a 60-strong delegation, said the two countries had agreed to co-operate in building power stations, oil refineries and petrochemical and food-processing plants.

Takeover specialist offers \$20b for RJR Nabisco prices may be undervalued since RJR Nabisco and Philip

marketing giants.

NEW YORK, Oct 24, (Reuter): The leveraged-buyout firm of Kohlberg Kravis Roberts and Co. said today it will offer to pay \$90 a share, or about \$20 billion, for tobacco and food giant RJR Nabisco Inc, topping an earlier

\$17 billion proposal.
It would be the largest corporate buyout in history.

On Thursday top executives from RJR Nabisco with the sup-port of the investment firm of Shearson Lehman Hutton Inc. informally offered to buy the company for \$75 a share.

Kohlberg Kravis, which has taken a number of major companies private in such leveragedbuyout transactions, including Beatrice Cos Inc., said that its offer would be a combination of 87 per cent cash and the remainder in securities.

Bid Kohlberg Kravis, which normaily acquires companies only on friendly terms, said the completion of its bid was conditioned upon approval by the RJR Nab-

Kohlberg Kravis said it would begin a cash tender for 87 per-cent of RJR Nabisco's shares later this week. After the merger, the remaining 13 per cent of the shares will be exchanged for securities valued at \$90 a share.

The specific terms of the securities will be determined in discussions with financial advisers to an RJR independent board committee appointed to evaluate offers.

The tender offer also will be conditioned, among other things, upon completion of financing, the company said.

The new development was expected to cause another steep rise in the shares of RJR Nab-

Merrill Lynch and Co. Inc. said after the offer was announced that it was trading the shares in London at \$84 to \$86. The shares closed on Friday at

RJR Nabisco, an Atlantabased company produces and markets a broad range of consumer products ranging from Winston cigarettes to Ritz crackers. It is the 19th largest US

industrial company.

The buyout offers for RJR Nabisco, if carried through, would easily top the \$13.2 billion Chevron Corp. acquisition of Gulf Oil Co. as the largest buyout on record.

Activity

Recent weeks have seen--intense-activity in the mergersfield, including an \$11.5 billion takeover bid for Kraft Inc. by RJR Nabisco's archrival Philip Morris Cos Inc. and Grand Metropolitan PLC's bid for Pillsbшу Со.

The heavy takeover activity flects sentiment that stock

Next US president must take steps to reduce deficit: study CAMBRIDGE, Massachusetts, separate memos advising the

Oct 24, (AP): The next president must take major steps to turn around a US economy destabil-ised by an entrenched budget deficit and fundamental policy flaws, a Harvard Business Review report said last week.

In a set of eight papers, experts from consumer activist Ralph Nader to Nobel laureate Paul Samuelson offer the next president economic advice amid a presidential campaign that is producing "a lot of partisan noisiness" but little serious deliberation, according to the

magazine. Instability

"There's a fundamental basic instability in the economic sys-tem right now," Harvard Business Review editor Theodore Levitt said, summing up the papers. "There is a kind of economic quicksand and we've got to face the reality - but we need

some reality therapy."

The magazine asked the advisers, some of whom wear next president on a range of economic issues shortly after the Democratic convention in July. The 42-page report will appear in the magazine's November-December issue.

The underlying conclusion: a fundamental instability in the US economic system needs to be addressed. Indeed, the federal budget deficit is so deeply rooted that it won't be resolved in the normal course of economic

Samuelson, a Massachusetts Institute of Technology professoremeritus, argues that the electorate - or, better, fear of alienating the electorate - has "frigh-tened away all candidates from even discussing vital economic

He said the next president should spend his first year trying to reduce the deficit from about 3 per cent of the nation's \$4 trillion gross national product toward 2

Samuelson said the next goal

I per cent and by 1992, eliminating all deficit that isn't cyclical. Cyclical deficits are tied to inflation, unemployment and other economic conditions.

Advice

The experts — two of whom advise the presidential candidates, Democrat Michael Dukakis and Republican George Bush - offer detailed advice for increasing capital formation, modernising the nation's manufacturing base and overhauling public education.

"Tell the American people the truth - that today's apparent prosperity is being borrowed from the future, that our children will be angry and frustrated when they are left with a lower standard of living." advises Clyde Prestowitz Jr., a former counsellor for Japan affairs to the Secretary of Commerce.

Nader, a thorn in the side of big business for 25 years, surprisingly argues that government can learn from business to become more efficient, humane,

would be to reduce that figure to opposite political stripes, to write creative and responsive. Researchers develop process to manufacture superconducting fibre

ROCHESTER, New York, Oct 24. (UPI): Researchers have developed a ceramic fabrication process they believe will allow the mass production of superconducting fibre that wastes no electric current.

A research team at Alfred University near Rochester developed the process, which integrates superconductive material into a ceramic form. Superconductivity is the

ability of a material to carry an electric current without resistance or heat. Electrical conductors now in use lose about 40 per cent of the original electrical charge before the current reaches

the consumer. Scientists hope to someday apply the concept to such uses as cost-free power generation and superfast trains built with super-

conductive magnets. While ceramics with superconuctive properties have been produced before, they are too

brittle for practical use as powerconducting fibres, the resear-

The new technique starts with the production of a form of glass that contains superconductive crystals. The glass is then converted into a ceramic that can itself be formed into fibres. The fact that the ceramic has glass properties makes it and those fibres significantly more flexible and less brittle - and potentially usable on a mass basis, the researchers

Technique

"This is the first (superconductive) device which could practically be used to move electricity. We've shown here nature will let us do this, now we have to make it practical," said Dr Robert Snyder, professor of ceramic engineering and the director of the Institute for Ceramic Superconductivity.

Snyder said the new technique permits the mass production of superconductivity fibre — a step that had eluded researchers until

Snyder said the research conducted at Alfred had superconductivity occurring at 90 degrees kelvin, or minus 247 degrees Fahrenheit. If and when higher temperature superconductors are developed, Snyder said he is confident the glass-ceramic technique will be able to work in the

higher temperatures. "We believe so, but we just haven't proven it yet." Snyder

said in a telephone interview. Atit Bhargava, a post-doctoral fellow at the State College of Ceramics at Alfred, said the process takes the work of Paul Chu, a University of Houston scientist who two years ago discovered the elements that make superconductivity practical, a

"This is the first way we've developed to make practical devices, Bhargava said.

step further.

London Stock Market Report

LONDON STOCKS QUIETLY ABOVE LOWS IN LATE TRADING LONDON, OCT 24, REUTER - SHARES WERE STEADY ABOVE THE DAY'S LOWS IN LATE TRADING AS WEAK OIL PRICES AND NERVOUSNESS AHEAD OF THURSDAY'S U.K. TRADE FIGURES CONTINUED TO WEIGH ON THE MARKET.

ALTHOUGH SHARES HAVE RECOVERED A LITTLE FROM THEIR OPENING FALL AN EASIER START TO WALL STREET AND A DEPRESSED POUND HAS KEPT INVESTOR INTEREST SUBDUED. DEALERS WERE PARTICULARLY ALARMED BY THE SHARP TURNAROUND IN SENTIMENT OVER STERLING AND WORRIES WERE AGAIN SURFACING THAT A MAJOR SLIDE IN THE CURRENCY COULD PROMPT ANOTHER HIKE IN U.K. INTEREST RATES.

BY 1553 GMT THE FTSE 100 SHARE INDEX WAS 8.4 POINTS OFF AT 1,850.9, AFTER HITTING A LOW OF 1,848.2.

DEALERS SAID MARKETS BELIEVED THAT IF THE SEPTEMBER BALANCE OF PAYMENTS DEFICIT IS ABOVE EXPECTATIONS, STERLING WILL DIVE AND ANOTHER RISE IN U.K. BASE RATES FROM THE PRESENT 12 FCT WILL

A CURRENT ACCOUNT DEFICIT OF AROUND 1.3 BILLION STG IS FORECAST, UNCHANGED FROM THAT IN AUGUST, BUT CHANCELLOR OF THE EXCHEQUER HIGEL LAUSON'S CAUTIONARY WARNING LAST WEEK THAT THE SHORTAGE WAS NOT LIKELY TO MARROM UNTIL 1990 HAS HARDENED THE MARKET TO A BAD FIGURE.

London Gold

LONDON, OCT 24, RELITER - GOLD BULLION WAS QUICKLY FIXED AT 405.50 DLRS AN OUNCE IN FAIRLY LIGHT AFTERNOON LONDON DEALINGS, WHICH WAS AROUND THE DAY'S LOWS AND DOWN FROM FRIDAY'S CLOSE OF

410.20/410.70 DLRS. THE DEFLATIONARY IMPLICATIONS OF WEAKER OIL PRICES FOLLOWING INCONCLUSIVE OPEC TALKS IN MADRID PUSHED ALL PRECIOUS METALS DOWN SHARPLY, BUT INTEREST GENERALLY CENTRED ON THE GOLD MARKET.

GOLD FELL FROM THE OUTSET FOLLOWING WEAKER FAR EASTERN MARKETS AND ALTHOUGH STABILISING AT THE MORNING FIX OF 406.30 DLRS, IT CAME UNDER FURTHER PRESSURE WHEN THE U.S. OPENED.

London Money Market

LONDON, OCT 24, REUTER - MONEY MARKET INTEREST RATES WERE FIRMER IN LATE TRADING IN A CAUTIOUS AND NERVOUS MARKET. TRADERS SAID SENTIMENT HAD BEEN UNSETTLED BY STERLING'S WEAKNESS AND THE PROXIMITY OF THURSDAY'S CRUCIAL U.K. BALANCE OF PAYMENTS DATA. STERLING HIT A LOW OF 3.12 MARKS THIS MORNING BEFORE THE RAMK OF ENGLAND INTERVENED TO SUPPORT IT, DEALERS SAID. THE POUND THEN STAGED A RECOVERY BUT WAS STILL LOWER AT ARCUND

3.1315 COMPARED WITH FRIDAY'S CLOSE OF 3.1355/90. IN LATE TRADING THE BENCHMARK THREE MONTH INTERBANK RATE WAS OFFERED 1/8 POINT FIRMER AT 12-3/16 1/16 PCT, ITS HIGHEST LEVEL FOR JUST OVER A MONTH.

Wall Street Market Report

New York, Oct 24, (Reuter): Wall Street stocks fell further as treasury prices declined on a drop in oil prices, traders said. Futures index traders said there had been some light arbitrage selling of cash stocks. Special situations remained stand out market features, brokers added.

The Dow was off 12 at 2171 and decliners led gainers by almost seven-tothree. Trading was moderate, they said.

Provident Capital Management portfolio manager Ed Powell sald the market was digesting some of its gains last week. "The fact that the market didn't take all of the gains back shows any surprises should be on the upside,"

Tokyo Stock Market Report

TOKYO STOCKS CLOSE DOWN, OFF LOWS, IN THIN TRADE TOKYO, OCT 24, REUTER - SHARE PRICES FLUCTUATED MODERATELY IN THE MINUS ZONE THROUGH THE DAY TO CLOSE JUST ABOVE THEIR LOWS IN THIN, DULL TRADE, BROKERS SAID.

THE HAVE THE TRIPLE MERITS OF A HIGH YEN, LOW OIL PRICES AND LOW INTEREST RATES TO SUPPORT THE MARKET," SAID TADAYASU HASEGAMA AT KOKUSAI SECURITIES CO LTD. "BUT THE NEGATIVE FACTORS OF THE RECRUIT COSMOS SCANDAL, A (POSSIBLY STRICTER) CAPITAL GAINS TAX AND THE HEALTH OF THE EMPEROR ARE

CAPITAL GAINS TAX AND THE HEALTH OF THE EMPERUM ARE
OUTWEIGHING THESE," HE SAID.

THE NIKKEI INDEX LOST 57.03 POINTS, OR 0.21 PCT, TO
27,281.54. IT ENDED 62.85 POINTS LOWER ON SATURDAY.

THE FIRST SECTION INDEX, OR TOPIX, MAS DOWN 7.67 POINTS AT
2,111.24, AFTER LOSING 7.65 POINTS ON SATURDAY.

PERLINERS LED CALMEDS BY ADMIT SEVEN TO SIVE WITH 244

DECLINERS LED GAINERS BY ABOUT SEVEN TO FIVE WITH 464 ISSUES DOWN AND 336 UP, IN LIGHT TURNOVER OF 600 MLN SHARES AGAINST 450 MLN IN SATURDAY'S HALF-DAY TRADE.

LOSERS WERE LED BY SECURITIES HOUSE, PHARMACEUTICAL, NON-LIFE INSURANCE, RETAIL, COMMUNICATIONS, ELECTRICAL, BANK, PULP/PAPER, GAS AND SOME MANUFACTURING ISSUES. THE TOP TEN WINNERS WERE SERVICE, OIL, WAREHOUSE, ROLLING STOCK, STEEL, CHEMICAL, FOOD, GLASS/CEMENT, PRECISION INSTRUMENT AND TRUCKING STOCK SHARES.

THE INDEX MOVED MARROWLY BETWEEN A HIGH OF 27,377.85 AND A "TODAY'S A MONDAY, AND MONDAYS ARE NEVER GOOD," SAID ONE

MA LOT OF LITTLE THINGS ARE DRAGGING ON THE MARKET, SO IT KIND OF HOVERS IN A ZONE. AS SOON AS THESE ARE REMOVED, THE

MARKET WILL TAKE OFF," SHE ADDED. CONCERN THAT THE ESCALATING RECRUIT COSMOS SCAMDAL COULD PROMPT A TIGHTER CAPITAL GAINS TAX AND STRICTER INSIDER TRADING REGULATIONS ARE CAUSING WARINESS AMONG INDIVIDUAL INVESTORS, ESPECIALLY SPECULATORS, BROKERS SAID.

Hong Kong Market Report

HONG KONG, OCT 24, REUTER - STOCKS WERE WEAKER AT THE CLOSE ON LOWER VOLUME BECAUSE OF UNFAVOURABLE TECHNICAL FACTORS AND UNCERTAINTIES IN THE U.S. MARKET, BROKERS SAID. THE HANG SENG INDEX FELL 19.23 POINTS TO 2,562.46 AND THE BROADER BASED HONG KONG INDEX WAS OFF 13.11 TO 1,687.35. TURNOVER TOTALLED 641.17 MLN H.K. DERS AGAINST 801.00 MLN LAST

TRADING WAS QUIET AS MOST INVESTORS STAYED ON THE SIDELINES. A MAJOR EXCEPTION WAS HONGKONG SHANGHAI HOTELS. WHICH ATTRACTED SPECULATIVE INTEREST BECAUSE THE COMPANY RECEIVED A BID LAST WEEK FROM INVESTMENT FIRM CATHAY CITY.

currency, dealers said. Tomorrow and spot-next funds traded at 5-1/2 and six per cent, the same as on Thursday,

the last trading day before a holiday to mark the birthday of the Prophet Mohammed. But overnight was marked at six, five per cent from as high as

Quiet The fixed dates were quiet at 6-1/2, 1/4 per cent for the one through three-month maturities

and 6-5/8, 1/8 per cent for the six-

15 per cent on Thursday.

month. The Central Bank initially set its dinar exchange rate firmer at 0.27998/08 to the dollar from Thursday's 0.28118/28 but then adjusted it softer to 0.28008/18. Commercial banks quoted spot

rates of around 0.28018/28. Meanwhile, Saudi riyal interbank deposits displayed a softer tone vesterday as some banks lent fixed period funds in a bid to prevent rates from rising further.

Dealers said many traders ---both offshore and within the kingdom — were keen to prevent rates from climbing above last week's highs.

They had jumped on Thursday ahead of an expected drain on liquidity brought on by five billion riyals (\$1.3 million) worth of pension fund repayments due to expatriates from the Saudi government.

Funds

But an unexpected influx of funds within the kingdom yesterday added to the downward pressure on rates, dealers said.

"This is probably only a temporary decline - some people are trying to push rates down," one dealer said.

Spot-next funds traded at 8-1/ 2, 1/4 per cent after quotes of nine, 8-1/2 on Sunday. One-week eased to 8-5/8, 3/8 per cent from the same level.

One-month eased to 8-3/4, 5/8 per cent from 8-7/8, 11/16 while three-months declined 1/16 point to 8-15/16, 13/16 per cent. Six-months and one-year were little changed at nine, 8-7/8 per cent and 9-1/8, nine per cent respectively.

The spot rival was steady at 3.7503/06 to the dollar.

Debt relief measures so far taken 'no cause for optimism'

UNITED NATIONS, Oct 24, (OPECNA): International steps so far taken on the global debt problem had given no cause for optimism, Nigeria told the UN General Assembly's Economic

and Financial Committee here. Nigerian delegate S U Yolah said while people had become increasingly aware of the serious-ness of the debt problem, the measures taken at the international level — the Toronto summit, the IMF and the World Bank - did not reflect this increased awareness.

He said the debt ratio - the relationship between debt service and export earnings — had risen over the 1982-87 period by 25 per cent for Latin American and Caribbean countries and 50 per cent for sub-Saharan African

Social problems had assumed 'dramatic dimensions' in some developing countries, he points

Yolah said audacious and original measures in proportion to "the problem and the tragedy" were yet to be taken. He noted that financial institutions were more concerned about their own assets, distributing credits among developing countries in such a way as to prevent any failure of debt repayment.

Solution

He said a real solution would require a reduction of the debt by expanding periods of mid-term moratorium and repayment, and more concessional interest rates.

'Yolah said the reduction in debts which industrialised countries had acknowledged in the case of low-income countries also needed to be extended in the case of low-income countries also needed to be extended to middle-income nations, regardless of whether such reduction covered the principal or the interest, or a combination of both.

Venezuelan ambassador Andres Aguilar said the only positive element of the current debt strategy was the relative stability with which the financial system was functioning.

He said a solution to the debt problem would require greater sensitivity on the part of the international community, as there were threats of "social convulsion and global poverty."

Gulf likely to reach free trade pact with EEC by mid '89

BAHRAIN, Oct 24, (Reuter): Gulf Arab states are likely to reach a free trade agreement with the European Economic Community (EEC) by mid-1989, Bahrain's Finance and Economy Minister Ibrahim Abdel-Karim said today.

He told Reuters the six-member Gulf Co-operation Council (GCC) had increased efforts to present a common policy in negotiations aimed at reducing EEC tariffs on Gulf petrochemical

exports.
"Discussions are under way. I don't expect anything to take place this year but we are hopeful that sometime in the middle of next year we will be able to sign an agreement," he said.

Exports The six Gulf states have launched a drive to increase their petrochemical exports to Europe but the EEC maintains that lifting protective restrictions - which effectively bar someproducts — would flood the market with cheap Gulf exports.

The GCC, an economic and political alliance formed in 1981, groups Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates.

Abdel-Karim said a meeting of Gulf finance ministers in Riyadh on Wednesday would address the issue before a GCC summit scheduled for Bahrain in December. A report on progress towards an agreement would be submitted, he added. Agreement

"Our first priority is the free trade agreement. It is very important because the EEC is our main trading partner," be

EEC exports enter GCC countries at low customs duties or in some cases, dutyfree. Provisional figures for 1987 put the total value of trade between the two regions at \$26 billion, with a surplus of \$3.17 billion for the EEC.

GCC countries export a total of around five million tonnes of petrochemicals and 4.5 million tonnes of fertilisers a year, but the figure is likely to rise sharply as most are taking steps to expand their downstream petroleum industries.

In June the Community signed a modest trade and co-operation accord with the GCC to sidestep the issue of petrochemical tariffs.

The agreement — intended as a prelude to a broader pact — committed both sides to continue to grant each other "most favoured nation" status and not to introduce any new tariffs or trade restric-

Abdel-Karim said as part of a free trade agreement, Guif countries would have to lift non-revenue duties on European

Goods A Guif economist said this would only affect the higher customs duties which Gulf states place on EEC goods competing with their industries. They make up around 10 per cent of Europe's exports to

Abdel-Karim said the GCC summit in December would focus on the adoption of common financial, industrial and trade policies.

"We are moving from the stage where we have to remove restrictions and barriers amongst ourselves ... we want to adopt common policies vis-a-vis other world groupings," he said. Abdel-Karim also said little progress

had been made on a scheme for a unified currency system among the six GCC

The plan would break with a traditional close link to the dollar - the currency in which Gulf countries sell oil — and create a peg to a basket of currencies reflecting the trading patterns of the six states more

"GCC central bank governors are discussing the idea but there are different views on this issue. I am not sure there will be a breakthrough this year," he said.

Gold slips

Dollar rebounds and sterling dives

LONDON, Oct 24, (Reuter): Oil prices skidded today after OPEC talks at the weekend failed to come up with solid proposals on new organisation output curbs needed to end a worldwide glut.

West Texas Intermediate, the US benchmark crude oil, fell in New York to \$13.47 a barrel, down 90 cents from Friday, Lessprized North Sea Brent dropped ust over a dollar to trade around \$12.40 in the European spot

market. "The key issues haven't been seriously discussed," said a European spot market trader commenting on the weekend talks in Madrid of eight of the 13 OPEC oil ministers.

Analysts said, however, that the prospect of further OPEC talks in November may put a floor under the petroleum market such that petrol pump and heating oil prices do not fail

Crude prices remain about a dollar above 26-month lows touched on Oct 6.

But the new decline had a knock-on effect in other mark-

Gold slipped \$5.30 to \$405.15 an ounce at the London bullion market close.

Bullion loses its allure as a hedge against inflation whenever OPEC's ability to hold fuel costs

up seems in doubt. Currency dealers said the Bank of England (central bank) twice intervened in the foreign

peace," he said.

By Fathima Ahmed

exchange market to prop up the pound sterling, hit by weaker North Sea oil prices and worries that British trade figures on

Thursday will show a big deficit. Sterling closed at 3.1326 West German marks, down more than a psennig on Friday although above 3.11 to which it dipped in

Asia earlier today.
The ministers in Madrid did report some progress, with Iraq and Iran at least discussing a formula that might end their dispute. The committees meet again four days before a full OPEC conference in Vienna on Nov 21.

But traders said the market was not impressed by an OPEC statement that organisation output would be pegged at its current level until November. At 20 to 21 million barrels daily, this is at least one million in excess of what the market wants.

While sterling slipped, the dollar rebounded from fourmonth lows touched late last week to close in London at 1.7868 marks and 126.85 yea, compared with Friday's 1.7795 and 126.32.

But dealers said it might weaken again soon on the basis of speculation that the next US administration might favour a lower dollar to help correct America's big trade deficit.

World stock markets generally had a dull day with the Dow Jones Industrial average on Wall Street down 3.73 at 2,179.77 at New York's midday. In London shares were steady

above the day's lows in late trad-ing as weak oil prices and nervousness ahead of Thursday's UK trade figures continued to weigh on the market.

Although shares have recovered a little from their opening fall in easier start to Wall Street and a depressed pound has kept investor interest subdued. Dealers were particularly alarmed by the sharp turnaround in sentiment over sterling and worries were again surfacing that a major slide in the currency could prompt another hike in UK interest rates. Low

By 1553 GMT the FTSE 100 share index was 8.4 points off at 1,805.9, after hitting a low of 1.848.2.

Dealers said markets believed that if the September balance of payments deficit is above expectations, sterling will dive and another rise in UK base rates from the present 12 per cent will be on the cards.

Blue Arrow topped the actives list with a turnover of 12.7 million shares by 1630 GMT, with two or three large bargains of over one million shares going through the market around mid-

morning.

The shares were up 2p to 101 but analysts were perplexed by the activity. One said: "It's got so many shares in issue, 13 million or so are neither here nor there. I really can't see anyone wanting to bid for such a debt-laden com-

Tokyo money brokers call out to their colleagues in respective directions to check for updates in the trading situation in Tokyo yesterday. Pearson shares were down 15p to 715 but dealers said this was due to speculators taking profits in the absence of any concrete bid moves. The market has speculated that Australia's News Corp. would seek to increase its 18 per cent stake in Pearson.

Lucas was 1p off at 596 but above their lows as investors reappraised this morning's news of a 28 per cent rise in full year pretax profits to £146.3 million. above estimates of 140 million.

Talks under way to lay down plan to revive

market and restore confidence

Quoting what it described as well-informed sources, a local daily reported that consultations centred on how to begin since several options have surfaced.

of companies to rectify the process of weak ones or liquify them after feasibility studies to determine their continuity. Shares

The second proposal, the newspaper went on to say, calls for purchasing enlisted companies shares or applying a sale on credit system and to allow expatriates to deal in stocks within certain limits. The sale on credit system provides for purchasing stocks with the payment to be made in due course.

The paper quoted its sources as saying that the issue still needs more time due to the lack of data regarding the companies enlisted at the bourse and the difficulty in determining stock prices in the absence of information.

Private savings likely to fall

Consumer tax rises set to slow down Bonn economy

BONN, Oct 24, (Reuter): West Germany's economy, Europe's biggest, will slow down next year and grow by only two per cent because of plans to raise consumer taxes, five leading economic research institutes said

Chancellor Helmut Kohl's government, the main industrialists' organisation and economists polled by Reuters were all more optimistic about prospects for 1989.

The government says growth could reach between 2 and 2.5 per cent because private savings are likely to fall ahead of income tax cuts planned for 1990.

This would offset the dampening effect of higher consumer taxes on a range of products from petrol to tobacco. Rise

"In the view of the Economics Ministry, an average rise in gross national product between two and 2.5 per cent is by no means too optimistic a forecast," a government statement said.

But the institutes said in a joint report that the tax increases would weaken the economy and could lead to higher wage demands and lower corporate investment.

"In 1988 tax cuts helped the economy but rises in consumer taxes next year will create problems," Arthur Krumper, spokesman for the institutes, told a news conference.

"We see a danger that price rises will spark demand for higher wages and put pressure on company profits and investment levels," Krumper said on behalf of the institutes in Munich, West Berlin, Hamburg, Kiel and

The forecasts of both government and the institutes have been revised upwards from earlier estimates. Bonn earlier forecast 1989 growth of 1.5 to two per cent and the institutes a meagre 1.25 per cent.

"(The institutes' growth) forecast seems too pessimistic. said Giles Keating, European economist at Credit Suisse First Boston Ltd in London. "I would expect three per cent or more."

Keating said figures for manufacturing industry orders in recent months pointed to strong growth next year. Latest statistics show orders surged by a provisional 5.2 per cent in real terms in August from July.

The West German Industry Federation (BDI) also said the institutes' forecast was too pessimistic. "Growing demand for German products will go on having a positive effect on production and exports into next year, a BDI statement said.

Krumper criticised the government for cutting some taxes one year and increasing other levies the following year, saying this had an upsetting effect on the economy.

If the consumer tax rises were scrapped, growth next year could reach 2.5 per cent, he said.

Bonn rejects the institutes' criticism, saying higher taxes were needed to finance increased federal government payments to the European Economic Community and economically weak

West German states. Wolfgang 'Erlebach, international economist at Bank of Liechtenstein (Frankfurt) GMBH said he expected 1989 growth to be at least two percent. Investment

Erlebach said that despite the consumer tax rises, he expected corporate investment to continue at high levels ahead of the 1992 European open market and a package of West German tax cuts planned for 1990. Economists said the govern-

ment's arguments in favour of the consumer tax rises had now become outdated.

CSFB's Keating said the rises seemed justified earlier this year when the budget deficit looked likely to exceed government forecasts and reach about 48 billion marks (\$27 billion). The government has since

changed its forecasts and now expects a deficit of 39 billion marks (\$22 billion) this year and 32 billion (\$18 billion) in 1989. "Now that finances are back

on the right track, the government's arguments seem uncon-vincing," Keating said.

ARCO earnings

NEW YORK, Oct 24, (Reuter):

Better profit margins from refin-

ing and strong chemical-division

earnings pushed third-quarter profits at Exxon Corp. up 15 per cent and at Atlantic Richfield

Co. up 24 per cent, despite a fall

in oil prices during the quarter. New York-based Exxon

Corp., the world's biggest oil

company, said today its earnings in the third quarter rose to \$1.22

billion from 1.06 billion in the

1987 quarter. But revenues were

a little lower, falling to \$21.89 billion from 21.93 billion.

Arab support vital to achieve unified economic pact

KUWAIT, Oct 24, (KUNA): Various Arab organisations and institutions have not been used effectively to support the joint Arab endeavour, Kuwaiti Finance Minister Jassem Al Khorafi has said.

Speaking to a local daily, Al Khorafi said joint Arab action lacks honest intentions. Only when everyone seriously support it, can positive results be possi-

ble, he said.
The Kuwaiti minister, will head the Kuwaiti delegation to the 19th session of the GCC Financial and Economic Committee (FEC) in Saudi Arabia on Nov

Ì9-20. id werm: System: 9-9d ! At Khorafi said the session will discuss implementation of the unified economic agreement, the unified system for protecting national industries and the unified system for forei

capitals' investment in the GCC

He added that directors of GCC custom houses are also scheduled to examine points and remarks referred by FEC.

The conferees will also review the GCC Secretariat's memorandum on promoting joint co-operation and another one on progress of negotiations with economic groups and countries.

The minister said implementation of the unified economic agreement, is difficult because of the diversity of economic system in Gulf Co-operation Council

The high ranking official affirmed Kuwait's honest and clear position on the importance and strength of Arab organisations in ensuring joint Arab economic

On many occasions, Kuwait has come up with a clear view on the joint Arab economic work as well as ways of backing such pan-Arab organisation, he said.

Canadian firm to sign contract with Ankara metro

ANKARA, Oct 24, (Reuter): A Canadian firm said today it hoped to initial a \$500 million contract with Ankara Muncipality next month to build the first stage of a city metro system. "We have substantially com-

pleted the documentation and there are no major problems. We hope to have contract initialling next month," Dick Giles, lead negotiator for the Urban Transport Development Corporation (UTDC), told Reuters.

Ankara city officials said on Oct 17 that construction could

start in November. UTDC, in partnership with

Turkey's Gama Endustri and Guris Insaat, was awarded a contract in July for the first 14-km (nine-mile) section of the 54-km (34-mile) project

Project

The five-stage project aims at easing travel problems on crowded roads and reducing pollution, much of it from exhausts, trapped in the city's surrounding

The project, which Giles said would cost \$2 billion at current prices, will be constructed under

the build-operate-transfer (BOT) system devised by Prime Minister Turgut Ozal.

60 per cent stake, and a joint Gama-Guris venture, with 40 per cent, would establish a BOT company to sign a formal contract after initialling.

The municipality is likely to take a 30 per cent stake in the \$30

million equity of the project com-pany that will run the first stage for 15 years after the 1992 completion date.

A main principle of the contract is that the consortium will

arrange financing.
The Canadian government made an offer for export credit financing through the export development corporation of about \$240 million," he said.

The first stage involves constructing 12 stations and a depot between the main Ankara business area of Kizilay and Batikent, a middle-income residential area, to the West. The system will have the capacity to move 45,000 passen-

gers an hour in thecity of just

over three million people.

Exxon earned \$3.88 billion against 3.28 billion in the year-earlier period. ARCO said its average price for domestic crude oil declined to Giles said UTDC, which has a \$9.62 per barrel in the third quarter from \$14 a year ago.

For the nine months, ARCO's earnings rose to \$1.19 billion

while revenues rose to \$13.78 billion from 12.36 billion.

Iraqi Airways seeks to buy new Airbuses

BAGHDAD, Oct 24, (Reuter). Iraqi Airways began negotiations today with the makers of the European Airbus about buy-ing two planes, airline director-general Noorildin Assafi said.

He said the airline was considering buying one A-310 and one A-320. Assafi also said a delegation from Boeing was expected in Baghdad soon to finalise an agreement to buy the company's 767 aircraft but did not say how

many might be purchased.

Tel: 2432420/2422539

Kraft rejects Philip Morris bid about 80 per cent of the com-GLENVIEW, Illinois, Oct 24, Richman said in the letter.

(AP): Kraft Inc. directors have rejected as "inadequate" an \$11billion takeover bid by Philip Morris Cos Inc. and announced a recapitalisation plan that Kraft believes will have a "significantly" higher value for sharehol-

John M. Richman, chairman and chief executive of Kraft, said in a letter to shareholders that the plan should boost the total value of the company's stock to \$110 per share, with a distribution in cash and securities of about \$98 and retention of common stock interest.

Value

He said the market would probably adjust to reflect the new value of the stock after the distribution.

The announcement came on Sunday.

The Philip Morris tender offer amounted to \$90 per share. "We should take action to maximise shareholder value rather than accept an inadequate offer."

"We strongly believe the \$90 takeover bid ... undervalues Kraft."

stock market

KUWAIT, Oct 24, (KUNA): A leading Kuwaiti newspaper today said talks are under way to lay down a comprehensive plan to revive the stock exchange on shares dealings.

The newspaper said some options tend to favour the sifting

wear it with pride.

Dear Junior Readers,

A very annoying habit some people have is borrowing things and not returning them. They ask you to lend them something for 'five minutes' and then hang on to whatever it is until you find the courage to styly ask if you could possibly have it back. Even then, you might have to wait at least another six months or else you are told that somehow, the object in question has just disappeared! Worse than that is when some people just help themselves to what they want without even bothering to ask first. It might be returned at some later time or the person might actually tell you that he or she took it when you were not around to ask. It is not that the person meant to steal the thing, but it they forget all about it, the result is the same — you do not know where it has gone and you will probably never see it

Do try not to be one of those unthinking people and always ask before you take something belonging to someone else, even if you honestly only plan to use it for a short time. Make sure too, that you look after what you borrow and return it as soon as possible, which will mean there is less chance of it getting tost.

Solution on Thursday

By Alison Uttley

ONE day the Grandfather rubbed his eyes, yawned and climbed out of the grandfather-clock in the hall, where he had lived for two hundred years. The clock stopped ticking, the weights ran down, and there was silence.

He tripped lightly across the hall, drawing his old cloak around his shoulders, and pressing his tall hat on his head, he tapped at the tiny door in the carved wooden cuckooclock, hanging on the wall. The painted Cuckoo looked out, and then fluttered down to join him.

They shipped through the open window, and walked across the garden where the mignonette and poppies were blooming. Old Grandfather picked a sprig of lad's-love, which he stuck in his hat, and the Cuckoo flew up to his shoulder.

What a picture they made as they stood under the apple trees, sniffing at the sweet scents, listening to the birds, drinking the fragrant air! But no one

saw them there.
"Let's go down the lane," said the Grandfather, "and see how the havmakers are getting on. I can smell the hay, and it's a hundred years since I was

So down the lane they went, light as thistle-down, making no sound except their laughter.

In the meadows were babies tumbling over in the hay, and the haymakers tossed and raked the grass. A hay-cart, drawn by a great mare, came lumbering through the gate, laden with a heavy load.

Grandfather climbed up on the gate, and sat there swinging his legs, watching

The Grandfather-clock and the Cuckoo-clock

little Cuckoo flew to a tree, and cuckooed twelve times.

"On no!" cried Grandfather. "Is it as late as that!" and he struck twelve with his deep ringing voice.

The haymakers put down their forks and rakes, and walked off to the hedge where their dinners lay in brown baskets under the dock leaves. The mare was set free from her load, and she whinnied her thanks to the strange pair.

Down jumped Grand-father and the Cuckoo, and they walked across the fields to the village school. They peeped through the open windows at the hot little children, sucking their pencils, frowning, wriggling, shuffling, as they struggled with their

"They ought to be out in the hay-field," whispered the Grandfather to the Cuckoo.

So the Cuckoo called twelve times, and the Grandfather struck. All the children shut their books, and prepared to go

"My clock must be very slow!" murmured the teacher to herself. "I had no idea it was so late."

The scampering crowd ran past the old Grandfather with never a glance. They were looking for the Cuckoo, but he was so small, they never noticed his little coloured wings beating on a larkspur by the window.

Grandfather patted a fair little boy on the head, but he only shook his hair

and ran after the others.

After them ran the Grandfather and the Cuckoo, but soon they left the children behind, hunting in the hedges, paddling in the streams, and away they went, through the village.

Leaning against a wall stood the policeman, and Grandfather stared at his fine helmet and bright buttons. But before be could speak the Cuckoo struck twelve again. Of course the Grandfather had to strike too, and his chimes rang through the village.

"Twelve o'clock!" exclaimed the policeman. "I must get along to my dinner. Suet dumplings today," and he hurried off home.

I'm thirsty with all this striking," cried the Cuckoo. "Shall we go down to the river to drink!
"yes," replied the Grandford."

dfather. "I want to see the old river again. I used to lie by its side when I was a boy, and dream, and dream.

They walked through the uncut meadow grass, thick with dog-daisies and blue crane's bill, to the great river. Grandfather's tight trousers were yellow with pollen, and the Cuckoo's wings were dipped in gold dust where he had fluttered among the flowers.

Then Grandfather sat down by the water's edge and cooled his toes, and the Cuckoo flew over the surface, pretending to catch flies like the swallows.

The water-rats came

them, and a family of white ducks paddled down a side stream from the farm to ask the news. Brown rabbits ran from their burrows and hopped on Grandfather's knees, and little water wagtails flirted their tails as they walked sedately up to pass the time

of day. A pair of dippers lelft their young ones to look at the odd couple on the bank, and a gay king fisher darted across the river to Grandfather's feet. "How is Time on the

river, nowadays?" asked the Grandfather. "It's much faster than when you lived here," said the water-rat. "We have to

move so quickly, and work so hard, it is night soon after it is morning." "But it's more exciting,"

said the ducks. "You should see us cross the road and hold up the traffic!"

"Tell us of long ago time," said the rabbits, and they crowded round him, as he sat among the purple loose-strife and creamy meadow-sweet by the river

So he talked and talked, and the day slipped by. Presently a cool wind blew, and the sun dipped down towards the horizon. The duck's feathers were ruffled, and the water-rat turned up his collar.
"It's getting late," said

the Cuckoo, and he struck Grandfather chimed with his deep rich voice twelve times, too. "Twelve o'clock?" cried the rabbits. "What a joke!

But the weasels will get us if

The dippers flew off to their lonely, wailing babies, and the kingfisher and wagtails hastened to their nests. Only the waterrats remained.

we don't go home," and

they scurried off to their

burrows.

"The sun hasn't gone yet, I can see it winking at us. Your time must be wrong, Grandfather,' they said.

"Yes, we have been wrong all day," answered the old Grandfather, as he reluctantly drew his toes out of the water.

"But it's been a holiday," said the little Cuckoo. "We left Time behind."

Grandfather stooped to the meadow grass and picked a great dandelion clock, round and pearlcoloured. He blew and blew, and the water-rats and the Cuckoo watched

"Eight o'clock," said he. "It's time the children were in bed."

So he said good-bye to the river, and waved to the water-rats, who sat on the bank watching him. With the Cuckoo on his shoulder, he ran through the bending grass, along the lanes, by the village, to the house which anxiously waited their return.

They climbed into their empty cases, and closed the doors. As soon as they were safely inside they

both struck.
"One, Two, Three,
Four, Five, Six, Seven. Eight."
"Hello! The clocks are

going again. They've stopped all day, and I couldn't make them go," cried a voice.

"Time for bed, children."

And, as the children went upstairs, the clocks sighed, and settled down to their quiet life again.

Rothmans Trophy

Atletico Madrid continued to flourish under the guidance of their new coach Ron Atkinson yesterday beating Elche 3-1 to pursue their path up the Spanish First Division.

Atletico, who spent the early weeks of the season floundering at the bottom of the division before the arrival of Englishman Atkinson 10 days ago, advanced three places to sixth.

But Atkinson's compatriot Howard Kendall saw his Athletic Bilbao side, the former League leaders, lose their third game in a row, beaten 1-0 by Osasuna and slip to eighth place.

Atletico, who beat Espanol 6-1 last weekend, put on another show of attacking play for Atkin-son in the first half against Elche, scoring twice from free kicks. Sneaked

Portugal's Paulo Futre slotted home the first goal after 17 minutes with a shot from 25 metres and Brazilian Baltazar de Morais, the League's top scorer, sneaked a second free kick past the post in the 29th. Luis Saavedra pulled one goal

back for Elche one minute into the second half but in the 89th minute Atletico's Manolo Sanchez sealed the result with a

powerful, close-range goal.
Bilbao, with six players out through injury, put on a lacklustre performance against Osasuna which augured badly for their European Football Union (UEFA) Cup second round tie with Juventus in Turin on Wed-

Richards promised more of

the same on this tour from Mal-

scored the winner for the Pamplona side in the 73rd minute.

In Lisbon, Benfica and Porto disappointed a sell-out 120,000 Lisbon crowd yesterday with a dour, goalless draw in Portugal's First Division soccer match of the day.

The result and third-placed Sporting's 0-0 draw at Penafiel left the top of the table unchanged with Benfica still one point clear after 10 games.

Fernando Chalana almost scored for Benfica in the seventh minute when his low angled shot slammed into one post, rolled along the line and hit the other before bouncing clear.

Porto goalkeeper Ze Beto was seldom troubled again and the visitors in fact came closest two minutes before the interval when a 30-metre free-kick from Brazilian defender Geraldao scraped over the bar.

But Porto were content mainly to crowd the midfield, standard away match tactics that are likely to be repeated on Wednesday when they face holders PSV Eindhoven in a European Cup first

In Glasgow, Scotland, striker Ally McCoist broke a stalemate with an 88th minute goal to give Glasgow Rangers the Scottish League Cup for the third year running yesterday in a 3-2 win over Aberdeen.

The match, deadlocked at 2-2, had looked set to go into extra time - like last year's final between the same two clubs which

ties - when Aberdeen's Jim Bett missed an open goal five minutes before the final whistle at Hampden Park.

But with two minutes left McCoist who had scored the opening goal from a penalty in the 14th minute, hooked in the winner from eight metres.

McCoist's penalty shot resul-ted from Aberdeen's Dutch goalkeeper Theo Snelders pulling down Kevin Drinkell just inside the area.

Aberdeen's goals both came from the head of David Dodds. He equalised in the 21st minute and levelled the score again seven minutes after lan Ferguson had put Rangers in the lead for the second time in the 55th minute.

England reserve goalkeeper Chris Woods was left helpless as Dodds' second header, from a cross by Charlie Nicholas, sailed past him into the net. Failed

And in Amsterdam, four goals from Wim Balm helped FC Twente to a bruising 7-1 win over RKC yesterday but failed to dislodge European Cup holders PSV Eindhoven from the top of the Dutch Soccer League

The League champions remained two points clear following their 2-0 win against Rotterdam's Sparta in a disappointingly lacklustre performance.

Struggling Ajax Amsterdam again demonstrated their steady improvement in form with a comfortable 3-0 win over FC Groningen to leap from ninth to

Nomads retain rugby crown

KUWAIT Nomads confirmed their status as the top club in the Gulf by retaining the Middle East XV-a-side rugby tournament in Bahrain over the weekend.

The Nomads went through the tournament not only unbeaten but without conceding a single try. The Nomads clinched victory by 3 points to nil in the final against Muscat through a lone Adams penalty.

injured In a tough, bone crunching forward battle, the Nomads pack did well to counter the heavier Muscat forwards. The work of Evans in the line-out, and Quinn and the injured Winfield in the

scrum was tremendous. However, the real difference was in the superior fitness of the Kuwait forwards which repeatedly saw the Muscat forwards driven back at rucks and mauls. The back-row of Hill. Sole and Robinson were outstanding and are without doubt the best unit in the Gulf.

In the backs Richard Ellis, a stand-in full back for the injured

Shipley, played the game of his life. His security under the high ball and his aggressive counter attacks caused numerous problems for Muscat. The tacking of Gatland and Hutchinson was impressive throughout the tournament, whilst Bulless and debutant Harvey always looked dangerous on the wings.

It was perhaps inevitable that victory should come from the boot of Adams, as he proved to be the tournament's top scorer. A rigorous diet and training programme has resulted in a slimmer, faster player, highlighted by his magnificent charging down and try score in the 4-3 semifinal win over Bahrain.

With two tries in the tournament Adams exploded the myth of being a non-running flyhalf. The excellent service of Hall gave Adams the time and space to weave his magic, and his trusty left peg did the rest.

Earlier in the tournament

Kuwait had qualified for the quarterfinals by beating Jubail 8-0 and Abu Dhabi 27-0. The

over Sharjah which left the semifinal game against the hosts Bahrain. With the crowds on the edge of their seats it was left to Adams to become hero of the

hour. The fatigue of 5 games in 2 days was soon forgotten as Hill climbed the steps to receive the trophy. The joy was further increased when Tony Sole was named "Player of the Tournament," thoroughly deserved after his unselfish, courageous performances.

Ground The tournament victory was a real squad effort, especially after Shipley (hamstring) and "Whitney" Houston (broken hand) were injured on the first day.

The Nomads still have no ground on which to train, but the leam spirit and desire to win found no match. There is little time to bask in their success as Doha come to Kuwait for a Gulf Knockout Quarterfinal in less than two weeks. The Nomads will be aiming to retain the second of the three trophies won

Richards warns Aussies before series to devastating fast bowling from Joel Garner and Michael Hold-

PERTH, Australia, Oct 24, (Reuter): West Indies cricket captain Viv Richards today warned Australia they would have a rough ride against his pace attack in the forthcoming five-Test series.

The 16-member West Indies squad arrived in Western Australia after a flight from the Middle East where they won the Sharjah one-day tournament at the weekend.

Richards told reporters that success had been a great confidence booster ahead of the three-month Australian tour."

Australia to be tougher oppon-ents than England," Richards said. West Indies beat England 4-

West Indies won their last tour of Australia 3-1 in 1984/5 thanks

PSV cut cost of Brazilian player through debt swap Oct 24, made the deal through the

Sunshine Forever triumphs

(Reuter): Dutch soccer team PSV Eindhoven, the reigning European champion, said today it saved about \$600,000 by financing the transfer of its new Brazilian striker Romano Faria through a debt swap.

PSV used Brazilian laws under : which foreigners can use foreign currency to buy Brazilian debt at a discount and get the full debt sum in cruzados in return, PSV manager Kees Ploegsma said in a telephone interview.

Finance the exchange rate, meant PSV only paid \$2.8 million to finance the 1.4-billion-cruzado transfer sum — well below the \$3.4 million it would have paid by changing funds at the going

exchange rate --- he said. The Findhoven team is widely believed to be the first to use debt swaps in sport but Ploegsma could not confirm that.

NMB's Amsterdam headquarters would not comment on

the deal. PSV who defend their European Cup title this season. bought Faria, the individual top scorer of the Seoul Summer Olympics soccer tournament, from Rio de Janeiro's Vasco da Gama side.

Its financing has triggered a debate in Brazil as to whether soccer stars contracted abroad should be paid for in hard currency like all other Brazilian exports, or whether Brazilian cruzados could be used.

The Brazilian Central Bank has said it is investigating the issue but Dutch newspapers quoted the bank's foreign exchange director as saying PSV had made legal use of a maze in Brazil's legislation and sanctions seemed unlikely.

Cram and Coe to race striking clock

CAMBRIDGE, England, Oct 24, (Reuter): Seb Coe and Steve Cram chase a place in Cambridge University history on Saturday when they race a clock's chimes around a cobbled courtyard in a stunt made famous by the Oscar-

winning film "Chariots of Fire." The British pair will set out to master three right-angled turns and tricky conditions underfoot in a bid to become only the second and third men to complete a circuit of Trinity College's great court before the final strike of the midday clock. Version

The traditional event, and its accompanying champagne celebration, was highlighted by "Chariots of Fire", the British-made film of the 1924 Paris Olympics.

But the celluloid version, which had sprinter Harold Abrahams achieving the feat, was not true to life. Olympic 100 metres champion

Abrahams never attempted the great court run. The only man to have beaten the striking clock was Lord Burghley, the 1928 Olympic 400 metres hurdles champion, who achieved it running solo during his last term at Cambridge in 1927.

Burghley recounted his memory of the day shortly before his death in 1981. "I did it for the fun of it," he said. "The clock had just been mended so it was running faster than usual. But I managed it with a beat and a half to spare."

Former world champion Cram and double Olympic champion Coe will find the task demanding. The distance around the square is 367 metres and the clock takes around 46 seconds to complete its chiming sequence. Standstill

The pair, who rarely run under 800 metres, will come to a virtuai standstill rounding the turns and run the risk of getting in each

other's way.

All proceeds generated by the televised event, due to be started at the first chime by Britain's Prince Edward, will go to a London children's hospital.

Two Czechs killed on Mount Tilicho KATMANDU, Nepal, Oct 24,

(AP): Two Czech climbers fell to their death on Mount Tilicho and four members of another Czech expedition have been missing on Mount Everest for a week, the tourism minister reported today.

The ministry said Leous Horka and Petr Gribek, both 45 and from Ostrava, reached the top of the 7,134-metre Tilicho last Tuesday. They spent the night on the summit and began descending the next morning, but slipped in an area about 600 metres below the peak and fell to their deaths.

It said one another member of the team, Palecek Ludik, 32, also from Ostrava, left the expedition's base camp at 4,600 metres the following day and reached the summit of Tilicho on Friday

morning. On the way down, Ludvik spotted the bodies of the other

With about 200 yards left in the 1-1/4-mile turf classic, France's Squill ridden by Guy Guignard took the lead from Sunshine

Forever and appeared to have the race won.

"That's absolutely unfair," she said. "He had no right to accuse me of anything. ... I have never used drugs, and I do not take steroids and never have. It's sad to me that people want to

Bakhit aims to win Kuwait powerboat race

By Gail Seery

"I AM coming to Kuwait to win," says Khaled Bakhit, winner of June's Kuwait Offshore Powerboat Race. He is expected to leave Dubai today, and tow his 24st Tigercat to Kuwait for the third Bi-annual Offshore Powerboat Race, being held on Friday in conjunction with the Messilah Beach Hotel's Henley-on-

Thames Regatta day. "However, the competition will be stronger than last time," he continued, adding that before the last race he had predicted that if a Dubian won, all the Kuwaiti racers would work hard to ensure that this did not happen again. "It will be harder for me to win this time, but I will finish in the

top three." Bakhit will be accompanied by his 18-year-old brother Homid, who throttled for him in the June event. He is studying at business school, but will be taking a break to help his brother in the Kuwait race. "He's very good," said Khaled Bakhit. "I think that in a monobull boat he is probably

better than me. "How well we do depends on

Bakhit (left) trailing Mishal Al Jarallah during June's race.

the sea conditions. My boat performs well in 2 to 4ft waves, not more. If there is rough sea we will not do well — my boat is too light. If the sea is not rough I have

a good chance to win. 'Salem Juma will be the strop-

gest competitor in the case of bad weather. He has a very strong boat, which can move fast in rough sea." Mohammed Salem Juma will drive the huge Emirates boat, which led for much of the June race, but which

finally gave up the challenge a little way from turning point 3. "We Dubians are looking to win, and we will be happy as long as the first prize goes to Dubai. We are coming to take first and second places for Dubai," Bakhit said.
"The strongest Kuwait com-petitors will certainly be Hossam Al Sayase and Mishal Al Jarallah," he added. Bakhit stressed how impor-

tant the co-driver is in any boat:

'No matter how good the driver

is, if the co-driver is afraid that boat won't win." Bakhit reckons that in rough seas the 27st Cougar, driven by Mishal Al Jarallah is likely to do better than the 24ft Tigercats, because it is heavier and will be

more stable in high waves. Strong "If I win this time I will be delighted — even happier than 1 was to win last time. There will be more competitors this time, with some very strong boats indeed. whereas last time there were only

three or four strong boats." "With so many similar boats racing a win will depend on how good the drivers are."

"If perhaps a Kuwaiti does win the race we will not be upset. We are very keen to race against them, and want them to come to the Dubai race and take us on there as weli. The two racing countries should co-operate and compete together."

Symth beats Chapman in play-off

LA MOYE, Jersey, Oct 24, (Reuter): Irishman Des Smyth scored his first European Tour success in five years when he beat Britain's Roger Chapman with a birdie three on the fifth hole of a play-off in the Jersey Open golf tournament yesterday.

The 35-year-old from Drogheda shot a final round five-underpar 67 to draw level with Chapman who had a 69 as they both finished on 15-under-par 273.

Symth survived a scare at the third play-off hole when he drove into a bunker but played a brilliant recovery shot and then claimed the title with a six-iron approach to within seven feet of the hole to set up his birdie chance on the final green.

Approached Britain's Ross McFarlane had earlier looked set to grab the title when he approached the 18th one ahead of Śmyth and Chapman.

However his hooked drive hit a spectator and rebound into a bunker from which he needed three shots to recover and the double-bogey six saw him fall to third place alongside fellow Britons Paul Way, Carl Mason and Neil Hansen

Victory took Smyth to sixth place in the European Order of Merit and followed second placings in the Dutch and Irish Opens and the West German Masters plus third place in the English Open three weeks ago.

Magee rallies for victory

PENSACOLA, Fla., Oct 24, (Reuter): Andrew Magee came from four strokes back to score his first PGA Tour victory at the \$400,000 Pensacola Open golf tournament yesterday.

Magee shot a closing round of six-under-par 66 for a 17-underpar 271 total. The first victory in four years on the Tour was worth \$72,000 to the 26-year-old Magee who increased his earn-

ings for the year to \$240,354.
"I've been hitting the ball well lately," he said, "and everything was clicking today. I was just trying to have some fun but I must admit I did get some lucky bounces."

Looking

Tom Byrum, the third-day leader by four strokes who was also looking for his first Tour victory, shot a disappointing final round one-under-par 71 for a total of 16-under-par 272 that tied Bruce Lietzke and Ken Green for second place.

Green was even with Magee going into his final hole but three putted from 25 feet for a bogey that cost him a shot at his third victory of the year.

MARINO FAILS TO STOP NEW YORK

Jets and Rams batter opponents

NEW YORK, Oct 24, (AP): In the end. Dan Marino didn't get any of what he was shooting for. The star quarterback of the

Miami Dolphins had the biggest passing day of his career and the second-most yardage in National Football League history, 521 yards. It wasn't enough yesterday as the New York Jets beat the Dolphins 44-30.

Marino's yardage was second to Norm van Brocklin of the Los Angeles Rams, who threw for 554 yards against the New York Yankees in 1951. But Marino also was intercepted five times. Three were taken by Erik McMillan, who returned one 55 yards for a score.

The Jets built a 30-10 halftime lead, getting 24 points in the second quarter. Then Marino really went to work. But each time the Dolphins got within a touchdown, the Jets would score or make a key defensive play.

Elsewhere in the NFL, it was Philadelphia 24, Dallas 23; the New York Giants 23, Atlanta 16: Cincinnati 44, Houston 21; New Orleans 20, the Los Angeles Raiders 6; Buffalo 23, New England 20; Minnesota 49,

Tampa Bay 20, and Detroit 7, Kansas City 6.

In late games, the Los Angeles Rams routed Seattle 31-10; Indianapolis blanked San Diego 16-0; Washington beat Green Bay 20-17, and Cleveland took Phoenix 29-21.

Tonight, San Francisco was at Chicago.

Jim Everett continued his superb play, completing 20 of 27 passes for 311 yards and three touchdowns. Everett threw scoring passes of 37 yards to Robert Delpino, one yard to Damone

Rams 31, Seahawks 10

Johnson and 32 yards to Aaron Cox. It was the third consecutive game in which Everett has passed for three scores. His 19 touchdown passes tops the NFC and gives him one more than he threw in the 1986 and 1987 seasons

Colts 16, Chargers 0
Eric Dickerson became the eighth NFL player with more than 9,000 career rushing yards, going for 169 at San Diego. Dean Biasucci kicked three field goals and the Colts defence did not allow the Chargers past the Indianapolis 25.

It was the second home shutout for the Chargers, who lost to Denver 12-0 on Oct 2. Redskins 20, Packers 17

At Milwaukee, Doug Williams made a triumphant return from five weeks on the sidelines after an appendectomy The Super Bowl Most Valuable Player led Washington on two long second-half scoring drives and Kelvin Bryant rushed for 140 yards. Williams connected on 25 of 43 passes for 225 yards.

The Redskins, 5-3, remained tied with the Giants for first place in the NFC East.

Browns 29, Cardinals 21 Like Williams, Bernie Kosar came back in style. Kosar missed six weeks with an elbow injury, but he threw for 314 yards and three touchdowns yesterday. Kosar, completed 25 of 43 passes, including 20 of 28 for 224 yards in the first half. He hit a 25yard pass to Reggie Langhorne with 8:14 remaining for the winning points, but also was picked

off three times. Steelers 39, Broncos 21 Pittsburgh ended its longest losing streakin 20 seasons at six games as Gary Anderson tied a club record with six field goals. Denver, playing without the injured John Elway, turned over the ball four times, including three interceptions replacement quarterback Gary

Eagles 24, Cowboys 23 Host Philadelphia fell behind 20-0 in the first half, but stormed back and won it on Randall Cunningham's 2-yard pass to Anthony Toney with four seconds to

Giants 23, Falcons 16 At Atlanta, the Giants were in

deep trouble until linebacker Carl Banks bailed them out. The Falcons led 16-9 and faced a third-and-3 at their 32. Chris Miller was hit by Banks as he threw, the ball popped into the air and was intercepted by Harry

Bengals 44, Oliers 21 At Cincinnati, the Bengals had the biggest first quarter in their

history, scoring 28 points, including a pair of touchdown runs by James Brooks. Turnovers set up three of the firstquarter touchdowns as the Bengals, 7-1, took a two-game lead in the AFC Central.

Buffalo was a kind host for much of the game, then came back to win on Scott Norwood's third field goal, a 33-yarder with 13 seconds to play. The Bills drove 69 yards on their last possession and boosted their AFC East-leading record to 7-1. Vikings 49, Buccaneers 20

Wade Wilson passed for 335 yards and three touchdowns for visiting Minnesota, which intercepted Vinny Testaverde six times. Testaverde, a second-year pro who talked last week of "turning the corner" after throwing for 469 yards against Indianapolis, completed 19 of 45 passes for 222 yards and one touchdown. The six interceptions give him 22 for the season, most in the

Lions 7, Chiefs 6

The two weakest offenses in the League did as expected. Rusty Hilger threw a 14-yard touchdown pass to Jeff Chadwick in the second quarter, just enough to offset a pair of field goals by Nick Lowery. Detroit had lost six consecutive games since opening with a win, while the Chiefs fell to 1-6-1. Celles blast Madrid the United States.

on his way to the final of the 32-player event, while Dittmar advanced to yesterday's show-

down without dropping a game.

Dittmar started well and took an early 8-6 lead in the opening game. But Jahangir picked up his game, whipping crosscourts past Dittmar's outstretched racquet to win five of the next seven points and take an 11-8 lead.

Dittmar levelled the score as he redropped a Jahangir drop into the nick and capitalised on a rare error by the top seed.

Jahangir then took control, winning the next four points and the first game.

Former boxing great dies

"It was vital for me to win that first game," said Dittmar. "I did a hell of a lot of work and was under pressure the whole time.

"I know I still would have had to win two more, but winning the first would have made me more confident.'

Dittmar appeared dejected after dropping the opening game and Jahangir needed just nine minutes to go 2-0 up.

The Australian put up more of fight in the final game but Jahangir slammed a crosscourt just out of the second seed's reach on the first of five match points for the victory.

Spinks learning the ropes in a new trade

DETROIT, Oct 24, (AP): Former w rld heavyweight cham-pion L: n Spinks is learning the

ropes in a new trade: bartending Spinks upset Muhammad Ali in 1978 and held the heavyweight boxing title until Ali won it back seven months later. But all his money is gone now, and the erst-while millionaire is attending bartending school here and getting practice at mixing drinks and conversation instead of pun-

He carries a large green bucket to fill a cooler with ice cubes, turns on the television to jot down winning lottery numbers that he writes on a chalkboard behind the bar. He mixes drinks and carries them gingerly to waiting customers.

"Serving drinks can be the har-dest thing; they've got a lot of drinks out there," Spinks said. "Weird drinks. Different colours and whatnot. Some things you would never drink."

He has been impressive during his four-week internship at Arietha's Lounge, owner Arietha Deloach said.

"He's not so proud to work after the fact that he had been a millionaire." she said. "He's back to square one now. He is very dependable. He's a people's person. Everyone likes him.
